Total No of Questions:12		Total No. of Printed Pages:01

Section—A (1X5)

Q.1. Define- **Death**

Q.2. Shape of Obturator foramen is ..... in male hip bone.

Q.3. Formula for Stature estimation from long bones was first suggested by .....

Q.4. Name 02 preservatives used for liquid blood.

Q.5. Angle between body and the ramus is approximately ..... degrees in males and ..... degrees in female Mandible.

Section—B (2X5)

Q.6. List differences between male and female femur bone in brief.

Q.7. Mention objectives of Medico-legal Autopsy.

Q.8. Describe Adipocere formation and its Forensic significance.

Q.9. Discuss in brief, Ossification activities and growth of bones.

Q.10. Briefly describe "Early changes after death"

Section—C (5X2)

Q.11. Describe post mortem examination of a body in a case of suspected poisoning, Also mention viscera to be preserved and preservatives to be used.

Q.12. List the differences between Male and female skull bone, support your answer with appropriate diagram.

Total No of Questions:12		Total No. of Printed Pages:01

Section—A (1X5)

Q.1. The lens opening that allows more, or less light on to sensor formed by diaphragm inside the actual lens called .....

Q.2. Write in short about overexposure.

Q.3. The ..... converts the latent image to macroscopic particles to metallic silver.

Q.4. Rangefinder is device that determines a distance to object using principle of.....

Q.5. Describe Depth of Field.

Section—B (2X5)

Q.6. Describe shutter and shutter speed.

Q.7. Write down concept of grey level.

Q.8. Describe Macro photography.

Q.9. Discuss about Time-stretch photography.

Q.10. Describe the Single lens reflex camera.

Section—C (5X2)

Q.11. Describe crime scene photography.

Q.12. Explain the process of image acquisition.

Total No of Questions:12		Total No. of Printed Pages:01	

Section—A (1X5)

Q.1. Rh antigens are transmembrane proteins used for the transport of ----and----across the plasma membrane.

Q.2. Reagent used in Berberio's test is.....

Q.3. Detection of Trypsin inhibitors confirms the presence of ..... stain.

Q.4. Level of Choline rises up to 20 times in freshly ejaculated Semen after 02 hours (T / F).

Q.5. Spermatozoa is formed in.....tubules of Testis and matures in.....

Section—B (2X5)

Q.6. Describe mechanism of **Amylase** test.

Q.7. Describe Urea nitrate test, Which body fluid is detected using this test ?

Q.8. Discuss the significance of Immunoelectrophoresis.

Q.9. Name any four Polymorphic enzymes / Isoenzymes of Forensic significance.

Q.10. Describe **Takayama Test** for the detection of Blood stains.

Section—C (5X2)

Q.11. Describe Mixed-Agglutination technique of Blood group determination.

Q.12. What is Semen? Discuss 02 Confirmatory tests for the seminal stains in detail.

Course Outcome

Course Name: Microprocessor and Assembly Language Programming
Course Code: CS 14.359
Credit Hours: 1
Semester, Year: Autumn (V), III
Branch: Computer Science Engineering (CSE)
Prerequisite: Basics of Electronics Engineering (EC 14.101), Computer Organization and Architecture

Module wise Course Outcome (CO)

Course Outcome Number	Course Outcome	Bloom Taxonomy
	At the end of the course, Student will be able to:	
Course code.1	Able to remember the pin configuration of different processors and interfacing devices.	Remember
Course code.2	Able to evaluate the difference in programming for different processors.	Evaluate
Course code.3	Able to create efficient interfacing circuits for specific applications.	Create
Course code.4	Able to describe various concepts of interfacing and assembly language programming.	Understand
Course code.5	Able to apply programming, addressing and interfacing techniques.	Apply
Course code.6	Able to analyze interfacing circuits and requirements for various processors.	Analyzing

Course Outcome

Course Name: Microprocessor and Assembly Language Programming
Course Code: CS 14.359
Credit Hours: 1
Semester, Year: Autumn (V), III
Branch: Computer Science Engineering (CSE)
Prerequisite: Basics of Electronics Engineering (EC 14.101), Computer Organization and Architecture

Module wise Course Outcome (CO)

Course Outcome Number	Course Outcome	Bloom Taxonomy
	At the end of the course, Student will be able to:	
Course code.1	Able to remember the pin configuration of different processors and interfacing devices.	Remember
Course code.2	Able to evaluate the difference in programming for different processors.	Evaluate
Course code.3	Able to create efficient interfacing circuits for specific applications.	Create
Course code.4	Able to describe various concepts of interfacing and assembly language programming.	Understand
Course code.5	Able to apply programming, addressing and interfacing techniques.	Apply
Course code.6	Able to analyze interfacing circuits and requirements for various processors.	Analyzing

End Term Examination, Autumn, Semester 2019-2020

B.Tech (NST) Branch II Year

Course name: General Purpose Programming | **Weight: 50%**
Course code: CS 19.205 | **Max.Marks: 100**
Total No. of Printed Pages: 3 | **Time: 3 Hrs**

Note: Question no.1 is compulsory. Attempt any five out of the remaining seven questions.

Q1

a. What is the output of the following code: [2]

L = ['a','b','c','d']print "".join(L)

a) Error b) abcd c) None d) ['a','b','c','d']

b. What will be the output of the following Python expression? [2]

round(4.576)

a) 4.5 b) 5 c) 4 d) 4.6

c. Which of the following is an invalid statement? [2]

a) abc = 1,000,000 b) a b c = 1000 2000 3000
b) a,b,c = 1000, 2000, 3000 d) a_b_c = 1,000,000

d. What will be the output of the following Python functions? [2]

chr('97') chr(97)

a) a, Error b) 'a' , a c) Error, a d) Error, Error

e. Which of the following is not a complex number? [2]

a) k = 2 + 3j b) k = complex(2, 3) c) k = 2 + 3l d) k = 2 + 3J

f. Given a string s = "Welcome", which of the following code is incorrect? [2]

a) print s[0] b) print s.lower() c) s[1] = 'r' d) print s.strip()

g. What is the output of the following program : y = 8 z = lambda x : x * y print z(6) [2]

a) 48 b) 14 c) 64 d) None of the above

h. What is the output of the following code? eval("1 + 3 * 2") [2]

a) '1+6' b) '4*2' c) '1+3*2' d) 7

i. Which of the following statements create a dictionary? [2]

a) d = {} b) d = {"john":40, "peter":45} c) d = {40:"john", 45:"peter"} d) All of the mentioned

j. The expression a{5} will match _____ characters with the previous regular expression [2]

a) 5 or less b) exactly 5 c) 5 or more d) exactly 4

Q2 a Distinguish between strings and lists in Python with appropriate examples and methods. [8]

Registrar

	b	Write a program to calculate GCD of two numbers by using recursion.	[8]
Q3	a	Contrast between tuples, sets and dictionary with suitable examples.	[8]
	b	What is inheritance? Write a program to show multilevel inheritance.	[8]
Q4	a	Why software testing is required? Distinguish between black box and white box testing.	[8]
	b	Discuss the utility of lambda function with various examples.	[8]
Q5	a	What is an iterator? Design a user defined iterator to iterate the value by 4 every time.	[8]
	b	Mention the utility of matplotlib. Write a program to depict the output of function: $y=x^3+x^{1/2}$ for 20 values of x with unit interval.	[8]
Q6	a	"Exceptional Handling leads to robust programming", justify the statement and support your answer with examples.	[8]
	b	How while loop is different from for loop? Explain.	[8]
Q7	a	Write a program to print table of a given number and store the output in a text file. Also, write the code to count total lines existing in a file.	[8]
	b	Distinguish between user defined function and a module with appropriate examples.	[8]
Q8	a	Enlist various numeric functions with their syntax and examples.	[8]
	b	Write a program to input a string from user and count total capital and small alphabets, numeric characters and other special symbols.	[8]

MODY UNIVERSITY
A Leading Women's University

School of Engineering and Technology
Mid Term Examination - Spring Semester (2019-20)

Year	:	**3rd**		**Credits**	:	**4**
Course Code	:	**CS 14.322**		**Course Title**	:	**Data Mining**
Time Allowed	:	**1.5 Hrs.**		**Max. Marks**	:	**40**

Instructions:

1. ***All the questions are compulsory***
2. ***Attempt any two parts from question 3 and 4***

1. ***[5x2=10]***

a. In the given Box and Whisker's plot, what is the meaning of A, B, C, D & E?

b. The dataset is said to be positive skewed if:
i) Mode < Median ii) Mode > Median iii) Mode = Median iv) σ is high

c. The quality control specialists of a microscope manufacturing company test the lens for every microscope to make sure the dimensions are correct. In one month, 600 lenses are tested.
The mean thickness is 2 millimeters. The standard deviation is 0.000025 millimeters. The distribution is normal. The company rejects any lens that is more than two standard deviations from the mean. Approximately how many lenses out of the 600 would be rejected?
i) 60 ii) 90 iii) 30 iv) 15

d. State the difference between parametric and non-parametric tests.

e. Define trimmed mean approach for outliers removal.

2 **a.** Find the outliers in the following data sets by using any suitable method: ***[2x5=10]***
Set 1: 25, 1, 28, 3, 31, 42, 45, 42, 46, 45, 98, 44, 30
Set 2: 10, 8, 9, 1 , 2, 5, 15, 20, 30, 35, 40, 22

b. Distinguish between range, quantile, quartile and percentile with appropriate examples.

3 **a.** Calculate L_1, L_2 and L_∞ norm for P1 (1, 1), P2(1,5), P3 (4, 6), P4 (6,2). ***[2x5=10]***

b. Explain various types of qualitative and quantitative attributes with suitable examples.

c. What do you mean by correlation? Write any two real life examples for positively and negatively correlated attributes with brief explanation.

4 **a.** What are the steps for performing data mining? ***[2x5=10]***

b. Discuss the utility of proximity measures. How a dissimilarity matrix can be constructed for nominal attribute? Explain with suitable example.

c. Explain Principal Component Analysis.

Assignment Analysis

Course Name: Wireless Sensor Networks
Course Code: CS 14.426
Credit Hours: 4 (3-1-0-4)
Semester, Year: VIII (Spring), IV
Branch: B. Tech. (CSE)
Prerequisite: CS 14.306 (Computer Networks)

Module wise Course Outcome (CO)

Course Outcome Number	Course Outcome	Bloom Taxonomy	Asgmt. No.
	At the end of the course, Student will be able to:	Layer	
CS 14.426.1	Remember the characteristics, challenges and applications of WSN.	Remember	1
CS 14.426.2	Understand the characteristics, challenges and applications of WSN, emerging technologies and their advantages.	Understand	1, 2
CS 14.426.3	Apply different architectures of WSN and concepts of topology control.	Applying	2, 3
CS 14.426.4	Analyze the optimization goals and figure of merit.	Analyze	3, 4, 5
CS 14.426.5	Evaluate different routing and MAC protocols as well as various platforms and tools.	Evaluating	4, 5
CS 14.426.6	Create proficient routing and MAC schemes. Logically creates various software for WSN and create new localization techniques.	Creating	5

Question paper Analysis

Course Name: Marketing and Promotion

Course Code: AD 375

Year: 2019-20

Semester: 6th

Name of Faculty: Dr. Sukhvir Singh

There is no theory examination for this subject; hence there is no definite set of question papers common for all the students. Students are examined through juries and reviews conducted regularly by a group of teachers at different intervals and different stages Able to analyse the international market technically to predict trends accurately. Every student having different design problems are examined differently, on the basis of their Understanding, In-depth Knowledge of the issues, technical skills, demonstrate capacity for critical evaluation and judgment of new knowledge, concepts and evidence form a range of sources to propose a commercially feasible solution for the situation at hand.

Question Paper Analysis

Course Name:	Design Studio - IV	**Course Code:**	AD 305
Year:	2019-20	**Semester:**	V
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents there is no theory examination for this subject. This subject is very much related to ergonomics and human factors. The student understands, learn and develop different perspectives and aspects of ergonomics. Students work starting by observing and working on it like how to classification of ergonomics process. Students produce/develop various products by using ergonomics process throughout the semester. The student's works are evaluated on their actual work, concept, and detailed drawing & portfolios which they created throughout the semester in the subject. Also evaluate their ability to transform, apply various ergonomics processes via voice and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

End Term Examination: 50% weightage- Jury with Digital presentation and documentation. Course Work: 50% weightage- includes -presentation.

Course Name:	Design Studio -V	**Course Code:**	AD 315
Year:	2019-20	**Semester:**	V
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents there is no theory examination for this subject. This subject is very much related to design skills, making the student understand, learn and develop different metals & Leather properties and behavior, also develop as their processing techniques. Students work from starting like how to drafting the pattern process for Leather products. Students produce/develop various fashion and lifestyle products by using various techniques throughout the semester. The student's works are evaluated on their actual work, concept, and detailed drawing & portfolios which they created throughout the semester in the subject. Also evaluate their ability to transform, apply various manufacturing processes via voice and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

End Term Examination: 50% weightage- Jury with Digital presentation and documentation. Course Work: 50% weightage- includes -presentation.

Course Name:	Drawing & Colour	**Course Code:**	FD111
Year:	2019-20	**Semester:**	I
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents there is no theory examination for this subject. This is very much related to drawing skills subject to make the student understand and develop drawing skills. Students also develop their observation skills. Students work from starting like how to hold pencils for make drawing to the finished artworks, during through the semester develop/produce/make finished work including elements of arts, shading, colour application etc. The student's works is evaluated on their sheets & portfolios which they created throughout the semester in this subject. Their ability to transform, and play with the basic styles of sketching and rendering are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

50% Exam practical with over-all presentation, 50% For Class work includes -presentation, Taxonomy.

Question paper Analysis

Course Name: Fashion Marketing

Course Code: MM110

Year: 2019-20

Semester: 6th

Name of Faculty: Dr. Sukhvir Singh

There is no theory examination for this subject; hence there is no definite set of question papers common for all the students. Students are examined through juries and reviews conducted regularly by a group of teachers at different intervals and different stages Able to analyse the international market technically to predict trends accurately. Every student having different design problems are examined differently, on the basis of their Understanding, In-depth Knowledge of the issues, technical skills, demonstrate capacity for critical evaluation and judgment of new knowledge, concepts and evidence form a range of sources to propose a commercially feasible solution for the situation at hand.

Question Paper Analysis

Course Name:	Product Illustration	**Course Code:**	AD 33 5
Year:	2019-20	**Semester:**	V
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents there is no theory examination for this subject. This subject is very much related to design skills, making the student understand, learn and develop different rendering techniques. Students work from basic rendering to advance rendering process/rendering to give effect of a product. Throughout the semester students develop various rendering techniques by using different dry and wet colour medium. The student's works are evaluated on their actual work, illustration, detailed drawing & portfolios which they created throughout the semester in the subject. Also evaluate their ability to apply various shading processes via voice and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

End Term Examination: 50% weightage- Jury with Digital presentation and documentation. Course Work: 50% weightage- includes -presentation.

Course Name:	Craft Based Design Project	**Course Code:**	AD325
Year:	2019-20	**Semester:**	III
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No theory examination for this subject. This is a very abstract different production of the product. They understand and explore the design aspect of creating new design products.. Each student develop at least 5-7 products from the different techniques of Indian art on practical based and develop the illustration with the apply proper shades and combination with the color palette, shades, texture, orientation according to body type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the techniques of illustration are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode with class work submission.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Apply and 80% for Apply as per course outcome.

Question paper Analysis

Course Name: Internship

Course Code: FM 407

Year: 2019-20

Semester: 8th

Name of Faculty: Mr. Sushil Kumar Bishnoi

There is no theory examination for this subject; hence there is no definite set of question papers common for all the students. Students are examined through juries and reviews conducted regularly by a group of teachers at different intervals and different stages of Design. Every student having different design problems are examined differently, on the basis of their Understanding, In-depth Knowledge of the issues, technical skills, demonstrate capacity for critical evaluation and judgment of new knowledge, concepts and evidence form a range of sources to propose a commercially feasible solution for the situation at hand.

Question paper Analysis

Course Name:	Craft Based Design Project	**Course Code:**	AD325
Year:	2019-20	**Semester:**	III
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No theory examination for this subject. This is a very abstract different production of the product. They understand and explore the design aspect of creating new design products.. Each student develop at least 5-7 products from the different techniques of Indian art on practical based and develop the illustration with the apply proper shades and combination with the color palette, shades, texture, orientation according to body type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the techniques of illustration are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode with class work submission.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Apply and 80% for Apply as per course outcome.

Course Name:	Design Concept -I	**Course Code:**	FD101
Year:	2019-20	**Semester:**	I
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No theory examination for this subject. This is a very abstract subject to make the student understand the basic elements of design with the concept of design all part of the subject everything which exists based on principles. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and discovers the new design and shades and combination with the color palette, shades, texture, orientation, shapes, and lights. Students are taught to play with these in the context of Design development. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the basic design elements are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Analysis and 80% for Apply as per course outcome.

Question paper Analysis

Course Name:	Fashion Illustration and Presentation(Women's wear)	**Course Code:**	FD325
Year:	2019-20	**Semester:**	III
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No, theory examination for this subject. This is a very abstract different construction and pattern making techniques. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and develop the illustration with the apply proper shades and combination with the color palette, shades, texture, orientation according to body type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the techniques of illustration are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode with class work submission.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Apply and 80% for Apply as per course outcome.

Question Paper Analysis

Course Name:	Product Photography	**Course Code:**	AD 356
Year:	2019-20	**Semester:**	VI
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents. There is no theory examination for this subject. This subject is very much related to the elements of product photography and various formats of camera and functioning of SLR camera and its controls such that they can handle it well. The student studies various aspects of photography to understand, learn and develop their own photography style and apply in different products. Students work by intensive study of light and shadow by observing various times of the day after studying. Students make/produce/develop their own style/way to click photographs of various fashion and lifestyle products throughout the semester. The student's works are evaluated on their actual work, concept of light and shadow, portfolios which they have created throughout the semester in the subject. Also evaluate their ability to transform, apply various Individual experiences and learning, via voice and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

End Term Examination: 50% weightage- Jury with Digital presentation and documentation. Course Work: 50% weightage- includes -presentation.

Question Paper Analysis

Course Name:	Visualization & Representation	**Course Code:**	FD112
Year:	2019-20	**Semester:**	I
Examination	Mid Term/End Term		
Faculty Name:	Mr. Deepak Khandelwal		

This subject is based on practical contents there is no theory examination for this subject. This is very much related to visualization and drawing skills subject to make the student understand and develop visualization skills. Students also develop their observation skills. Students work starting like how to visualize and same to represent, during the semester students develop/produce/make and represent their ideas/concepts. The student's work is evaluated on their paper sheets & portfolios which they created throughout the semester in this subject. Their ability to transform, and play with the imagination styles of sketching and rendering are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, neatness, precision, quality of work, all-over-all impression.

Evaluation Criteria:

50% Exam practical with over-all presentation, 50% For Class work includes -presentation, Taxonomy.

Question paper Analysis

Course Name:	Fashion Illustration and Presentation(Men's wear)	**Course Code:**	FD325
Year:	2019-20	**Semester:**	III
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No, theory examination for this subject. This is a very abstract different construction and pattern making techniques. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and develop the illustration with the apply proper shades and combination with the color palette, shades, texture, orientation according to body type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the techniques of illustration are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode with class work submission.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Apply and 80% for Apply as per course outcome.

Course Name:	Design Concept -II	**Course Code:**	FD102
Year:	2019-20	**Semester:**	II
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No theory examination for this subject. This is a very abstract subject to make the student understand the 2D,3D effect to create design with the sketching style all part of the subject everything which exists surface design and develop different styles of surface. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and discovers the new design and shades and combination with the color palette, shades, texture, orientation, shapes, and lights. Students are taught to play with these in the context of Design development. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the basic styles of sketching and reandring are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Analysis and 80% for Apply as per course outcome.

Course Code: FM 326

Year: 2019-20

Semester: 8th

Name of Faculty: Mr. Sushil Kumar Bishnoi

There is no theory examination for this subject; hence there is no definite set of question papers common for all the students. Students are examined through juries and reviews conducted regularly by a group of teachers at different intervals and different stages of Design. Every student having different design problems are examined differently, on the basis of their Understanding, In-depth Knowledge of the issues, technical skills, demonstrate capacity for critical evaluation and judgment of new knowledge, concepts and evidence form a range of sources to propose a commercially feasible solution for the situation at hand.

Course Name: Dissertation

Course Code: FM 402

Year: 2019-20

Semester: 8th

Name of Faculty: Mr. Sushil Kumar Bishnoi

There is no theory examination for this subject; hence there is no definite set of question papers common for all the students. Students are examined through juries and reviews conducted regularly by a group of teachers at different intervals and different stages of Design. Every student having different design problems are examined differently, on the basis of their Understanding, In-depth Knowledge of the issues, technical skills, demonstrate capacity for critical evaluation and judgment of new knowledge, concepts and evidence form a range of sources to propose a commercially feasible solution for the situation at hand.

Question paper Analysis

Course Name:	Fashion Studies-Introduction	**Course Code:**	AD224
Year:	2019-20	**Semester:**	IV
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No theory examination for this subject. This is a very abstract subject to make the student understand the fashion terminology & there application in design with the develop product according to demand with different applicable aspects of designers all part of the subject everything which exists based on fashion market and consumers.. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and discovers the new product design with the study of current forcast. Students are taught to play with these in the context of Design development. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the basic design elements are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Analysis and 80% for Apply as per course outcome.

Course Name:	Introduction to craft	**Course Code:**	AD244
Year:	2019-20	**Semester:**	IV
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No commercial concept with innovative products. All part of the subject everything which exists aesthetic style of different type of craft based on different region of India. They understand and explore the design aspect of creating a new craft product for consumers. Each student picks two or three questions based on practical based and discovers the innovative product for selling. with understanding of the fabric, apparel, and different product type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the basic styles of sketching and rendering are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 10% both separately Understand and Analysis and 80% for Apply as per course outcome.

Course Name:	Fashion Illustration and Presentation(Men's wear)	**Course Code:**	FD325
Year:	2019-20	**Semester:**	III
Examination	Mid Term/End Term		
Faculty Name:	Prof. Dr. Smriti Agarwal		

This subject-based on practical contents there is No, theory examination for this subject. This is a very abstract different construction and pattern making techniques. They understand and explore the design aspect of creating a new design. Each student picks two or three questions based on practical based and develop the illustration with the apply proper shades and combination with the color palette, shades, texture, orientation according to body type. The work of the students is evaluated on their sheets, portfolios they created throughout their semester. Their ability to transform, and play with the techniques of illustration are evaluated through via-voice practical sheets and their work submitted. Criteria of analysis based on creativity, all-over impression, neatness, All-over analysis based on the application mode with class work submission.

Describe Analysis Criteria:

50% Exam practical with all over presentation, 50% For Class work./Presentation, Taxonomy and total % of marks, 20% Understand and Apply and 80% for Apply as per course outcome.
