Why?

As individuals, we are connected to each other via a multitude of virtual networks. However, for campus recruitments and testing, our methods as an industry remain fairly archaic. A credible student in Belgaum or Allahabad remains disconnected from a recruiting organization in Bengaluru. CoCubes.com was born in August 2007 to solve this problem.

The root of the name is **Connecting-Colleges-Companies** (Co*3)- CoCubes.

Story of our Birth

Harpreet and Vibhore are batchmates and roommates from IIT Bombay. They always wanted to start a company together. After passing out in 2005, Harpreet joined Inductis (an Analytics firm) and Vibhore joined Microsoft. One of Harpreet's uncles was a Training and Placement Officer in a remote college in Punjab- Bhai Gurudas Institute of Engineering & Technology (BGIET). Harpreet's uncle was keen on getting companies to his campus. He asked Harpreet to introduce him to the HR of Inductis. Harpreet promptly did so. Few months later, Harpreet followed up with his uncle (TPO) and the HR. Harpreet's uncle said- I've run myself to the ground visiting companies in Gurgaon. But none of them turn up in Sangrur. HR said- So many colleges approach me. I am not sure of the talent (quality and volume) they have. Hence, I keep going to the same colleges again and again. Harpreet and Vibhore often discussed business ideas- they found this to be a serious opportunity in our growing economy and wanted to solve this. They thought of creating an online platform where colleges and companies could get connected. This was the birth of CoCubes.com.

Proposal- Diagnostic Assessment Program

The diagnostic assessment program is scientifically designed. This is to be executed in the 6th & 7th Semester of Engineering education. The program is depicted below.

The idea behind the program is to use scientific data in diagnosing training needs, train and then measure training effectiveness. CoCubes Technology uses years of understanding of campus recruitment and gives critical insight into *type of questions, construct of industry assessments and typical cut offs*.

Two things are absolutely critical to understand:

Assessment measures the impact of training and thus, Training and Assessment must be managed independently. These assessments do not represent a particular company.

Features & Benefits:

CoCubes Diagnostic Assessment Program brings to you 3 absolutely essential benefits to your Campus Recruitment Strategy:

Increase Conversions- Scientifically designed, assessments provide insight into training needs.

Improve Placements & branding- PRE-ASSESS® industry acceptance has grown tremendously.

Save time and secure placement data- Use CoCubes Platform to manage placement data on a secure cloud based tool.

All in all, correctly executed, CoCubes Diagnostic Assessment Program will help you increase conversions and placement opportunities.

Even power of 9 returns the value which has unit place 1 and odd power returns the value which has unit place 9. Here 81 is odd, hence ans is 9

INDUSTRY READINESS

Benchmarks for the three categories are defined based on employability criteria used by employers while hiring through assessments of similar complexity and constructs. While 'Industry Ready' refers to students who are likely to be shortlisted by most employers on the respective skill, 'Need Practice' students may still be shortlisted by a few organizations but not all of them. Those in 'Need Training' category need considerable improvement to be shortlisted by any of the employers.
