

Automation of Mody University Central Library using ILMS – KOHA

Barcode Circulation System

The Library uses KOHA software package which is an integrated multi-user library management system that supports all in-house operations of the Library. The KOHA consists of modules on acquisition, cataloguing, circulation, serials, article indexing and OPAC. Retrospective conversion of bibliographic records has been completed and 65600 bibliographic records of books available in the Library can now be accessed through the Libsys OPAC. The database of books available in the Library is being updated on day to day basis with details of recently acquired books. Records of all the Library patrons have also been created in the Libsys package. The editing and updating activities are in progress.

The KOHAL package has been successfully implemented for the circulation activities, initially for faculty and staff. All faculty and staff members are being migrated to the new computerized circulation system. The package has also been implemented for Acquisition and Cataloguing activities. The data entry work for Serials System is in progress.

WebOPAC

The Library's Online Public Access Catalogue (OPAC) can be accessed on Intranet to search all the bibliographic records available in the Central Library database through a web-based search interface or with the window client of the KOHA. The OPAC can be searched by author, title, subject, keywords, classified number and publisher. The OPAC also provides information about new arrivals of journals/books, etc. in the Library.

<http://lib.modyuniversity.ac.in/>

Library Portal

The majority of the library's resources are online, accessible via the library's web page <http://10.20.80.49> within the campus. Users can access institutional repository like old question papers, syllabus, library membership form, book requisition form and information about university events etc.

Dear Sir,

From the shared attachments only 4 attachments are of my research use rest other attachments are either marketing related or they are related to some other sector. Though, little idea can be taken up from them, but, preferably HR related journals and researches of Insurance sector would suffice my research purpose more. Hope you would understand and help me back with the same.

Once again, accept my thanks for your kind support.

With sincere regards'

Ms. Meenakshi Sharma
