Dear Mr Joshi,

The Secretariat of the International Atomic Energy Agency (IAEA) is pleased to learn that you have been designated by your Institution to attend the **Annual Meeting of the International Nuclear Security Education Network** to be held at the IAEA's Headquarters in Vienna, Austria, from **22 to 26 August 2016**. The purpose of the meeting is to discuss the progress of the on-going and future activities and to consider several important network initiatives. The meeting is intended for current members of INSEN who have been actively engaged in working group activities in the past year.

The meeting will be held in English.

The meeting will commence at 9.00 a.m. Monday, 22 August 2016, in Board Room A, in the M Building of the Vienna International Centre (VIC). Meeting participants are requested to arrive at Checkpoint 1/Gate 1 one hour before the start of the meeting on the first day, in order to allow sufficient time for issuing of ground passes, which are necessary for official visitors to the VIC.

We understand that all expenses incurred in connection with your participation in the meeting will be paid by your institution.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in meetings, workshops or training courses or for consultants. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Dr Ashok Singh Rao

This is to certify that Dr Ashok Singh Rao, Head, Department of Arts in Mody University is a visitor of the University Scholars Programme, National University of Singapore from 4 to 8 March 2017.

As part of his visit, he conducted two seminar sessions attended by our staff and students. He delivered a seminar on 6 March 2017 titled "Indian Poetry: Artistic and Thematic Constructions", and another on "Indian Literature: Contemporary Sociological Issues" on 7 March 2017.

In addition, Dr Rao also interacted with our students through an informal session where he discussed the Study India Programme of Mody University and explained the various components of the programme to them.

Yours sincerely

Dear Mr Joshi,

The Secretariat of the International Atomic Energy Agency (IAEA) is pleased to learn that you have been designated by your Institution as a participant in the **Annual Meeting of the International Nuclear Security Education Network (INSEN)** to be held at the IAEA's Headquarters in Vienna, Austria from **24 July 2017 to 28 July 2017**.

The purpose of the meeting is to bring together all members of the network to exchange experiences, learn about on-going activities in Nuclear Security and to determine the work of the working groups for the next year.

The meeting will be held in English.

The meeting will commence at 9:30 on Monday, 24 July 2017, in Room BR A, Building M, of the Vienna International Centre (VIC). Meeting participants are requested to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the meeting on the first day, in order to allow sufficient time for issuing of grounds passes, which are necessary for official visitors to the VIC.

The IAEA will provide you with a lump sum equivalent to €1900 for the travel expenses to and from Vienna and for living expenses, including incidentals, connected with the meeting. You will be fully responsible for making your own travel arrangements and for cancellation costs, if any. This amount has been calculated on the assumption that you will stay for the total duration of the meeting. Should this not be the case, you would be requested to reimburse the IAEA for the appropriate difference.

It is understood that you are not receiving funds for travel or living expenses from any other source.

Approved

Invitation letter

Dear Nishita Singh Parmar,

as initiated by Prof. Shivpuri we are pleased to invite you to the Institut für Experimentelle Kernphysik at the Karlsruhe Institute of Technology (KIT) for an internship from 1st of June to 15th of August 2017. During this stay you will be able to acquire a high level of understanding of silicon detectors, module assembly, readout systems and/or database connectivity in preparation of the CMS Phase II Upgrade.

It is incumbent upon your home institute to provide you with the necessary financial means throughout the duration of your time at KIT to cover your stay in the local area as well as that of any accompanying family members. Your social insurance cover is the responsibility of your home institute and, by default, yourself. It must comprise health insurance covering the financial consequences of professional and non-professional illness and accidents at levels adequate in Germany.
Any members of the family accompanying you must also have health insurance covering the financial consequences of illness and accidents at levels adequate in Germany.
We strongly recommend you contact the relevant consulates for information on the entry conditions applicable to you in Germany, specifying the duration and nature of your work at KIT. Where appropriate, as soon as you receive this letter, please take the necessary steps to obtain before you depart the requisite documents, in particular a visa to enter the Schengen member countries.

We wish you an excellent stay at KIT.

Yours sincerely,

A. Dierlamm

To Whom It May Concern

The State branch of the People's Union for Civil Liberties, Rajasthan acknowledges the valuable contribution of **Diprana Sengupta,** a student of 3rd year B.A. LL.B. from Mody Universty, Laxmangarh, who interned with us from the ***2nd June to 28th June, 2016***. During this period, she carried out several surveys, organized meetings, public hearings, trainings, visited various courts, police stations and participated in discussions and protests apart from engaging with day to day work at PUCL.

She along with other interns, went to the drought areas in the rural Rajasthan, examined the implementation of the National Food Security Act, 2013 and did the first ever survey of the Aadhar POS linked distribution of the PDS, in the hot summer month of June. They also surveyed the implementation of the Pension scheme in the State and studied the impact on beneficiaries. They put together a collective report and presented it to the GOR. Details from their report formed a part of the affidavit filed in the Supreme Court of India in the Swaraj Abhiyan case on non- implementation of relief measures by Government in the drought stricken areas of the country. They also helped put together with a collective of Rajasthan groups, a Jan Sunwai on the impact of drought in the State and the problems of using Aadhar for the PDS and Pensions schemes. All this was a part of "drought duty" that all PUCL interns undertook for a week in rural areas.

They also documented the challenges faced by people while seeking employment under MGNREGA, relating to housing and dignity of the Banjaras and other nomadic communities. They also organised a public hearing on the atrocities faced by dalits and nomadic communities and how they cannot access Government benefits even today. They also prepared case studies relating to the non-implementation of the Forest Rights Act.

They also participated in a public hearing on the Right to choice and against honour crimes and honour killings in Rajasthan organized by women's groups who demanded the enactment of a law by the State Government on the prevention, protection and redressal in matters of honour crimes in the State.

This is to state that Ms. Harshita Agrawal (Enrl. No. 130074), a 3rd year Law Student of Mody University of Science & Technology, Lakshmangarh, Sikar, Rajisthan has undergone internship under the guidance of the undersigned from 29th June, 2016 to 20th July, 2016. During the course of internship, Ms. Agrawal had the occasion to visit Hon'ble Supreme Court of India and watch the Court proceedings. Apart from visiting the Court, Ms. Agrawal attended the chamber of the undersigned and had the opportunity of witnessing the process of drafting a Special Leave petition under Article 136 of the constitution of India, preparation of the brief of the said case and the process of filing the same. Apart from the aforesaid opportunities, Ms. Agrawal also had the occasion of reading briefs pertaining to various varied type of matters filed before the Hon'ble Supreme Court of India. I have found Ms. Agrawal to be quite laborious, curious and having basic legal acumen. I wish her all the best for her future career in the days to come.

Poornima Saraswat,
Research Scholar, Bioscience dept,
CASH, Mody University,
India.

Dear Ms. Poornima Saraswat,

We cordially invite you to participate in the 2016 Food Biotechnology Training Course for Developing Countries, which is also named the 1st International Workshop on "Synthetic Biology for New/Improved Food Products: A solution for Food Security". This workshop is hosted by CAS-TWAS Centre of Excellence for Biotechnology (CoEBio), China together with Faculty of Science, Kasetsart University (KU), Thailand. It will be held on 19th December to 24th December 2016, in Bangkok, Thailand.

The theme of this workshop is "Synthetic Biology for New /Improved Food Products: A solution for Food Security". It aims to spread relevant new knowledge and initiate new R&D activities in developing countries. I believe that it will provide good opportunities for you to learn advanced knowledge and discuss ideas with the renowned experts in this area.

During your stay in Bangkok (19th December to 24th December 2016), the Workshop Organization will cover your local accommodation, registration fee and 50% of the cost of round trip tickets (economy based) while your VISA application fee (if needed) should be borne by you. The Organizer has reserved the University Hotel named KU Home which located inside the campus during your stay. You will find the up-to-date information on the website, http://bit.ly/microkuworkshop.

I look forward to welcoming you in Bangkok. Should you have any questions, please feel free to contact the local organizer, Dr. Wanna Malaphan, at fsciwnpl@ku.ac.th.

Sincerely yours,

Supa Hannongbua

Dear Madam,

I am glad to inform you that our President of the University has nominated you as one of the examiners for evaluation of Ph.D thesis entitled "Exploring recruitment methods and examining its effectiveness and empirical study" submitted by one of the research scholars of our University. As directed, I write to request you to kindly agree to examine the above mentioned thesis and also oblige us with your kind consent in this regards. Kindly send me the address at which you are interested to receive the thesis. Anxiously awaiting your kind consent

Dear Dr. Singh:

The above manuscript, entitled "Synthesis, characterization and antimicrobial activity of two Schiff base silver(I) complexes derived from 4-carboxybenzaldehyde" with Dr. Li as contact author has been resubmitted to the Journal of Coordination Chemistry.

I would again appreciate your opinion regarding its suitability for publication. The abstract appears at the end of this letter, along with the names of the authors. You will also find the decision letter containing the comments by the reviewers as well as the response to this letter by the authors at the bottom of this email.

Please let me know as soon as possible if you will be able to accept my invitation to review. To do this please either click the appropriate link below to automatically register your reply with our online manuscript submission and review system, or e-mail me with your reply.

Agreed: https://mc.manuscriptcentral.com/gcoo?URL_MASK=42e2b4b4292d476eb6d4fee29049833b

Declined: https://mc.manuscriptcentral.com/gcoo?URL_MASK=3573dd16f5a844418bc5683f19ce2f49

Unavailable: https://mc.manuscriptcentral.com/gcoo?URL_MASK=6b978571a3184b51bffc0358203c93ba

Should you accept my invitation to review this manuscript, you will be notified via e-mail about how to access Manuscript Central, our online manuscript submission and review system. You will then have access to the manuscript and reviewer instructions in your Reviewer Center.

Expert reviewers greatly contribute to the quality of the Journal, and I thank you for your assistance with this important task.

Best regards,

George Psomas

MANUSCRIPT DETAILS

TITLE: Synthesis, characterization and antimicrobial activity of two Schiff base silver(I) complexes derived from 4-carboxybenzaldehyde

AUTHORS: Zhang, Yanbo; Liu, Qing; Jing, Hairui; Cai, Yajun; Wang, Qiang; Li, Yuguang

ABSTRACT: Two new Schiff base silver(I) complexes, {[Ag(L1)][H2O]}∞ (1) and {[Ag(L2)][H2O]}∞ (2), in which L1 = 4-((2-diethylaminoethylimino)methyl)phenecarboxylate and L2 = 4-([3-(morpholin-4-yl)propyl] iminomethyl)phenecarboxylate, have been synthesized and characterized. X-ray crystallographic analysis reveals that two silver atoms in complex 1 are bridged by Schiff base ligand L1 to form a one-dimensional zigzag chain, while three silver atoms in complex 2 are linked by Schiff base ligand L2 to produce a two-dimensional coordination polymer. Guest water molecules in 1 generate a one-dimensional hydrogen-bonded chain. Both 1 and 2 were found to offer high antibacterial effect against Gram-positive bacteria Staphylococcus aureus with the respective MIC values of 0.26 and 0.24 mM and to exhibit good inhibitory activity against urease with the respective IC50 values of 3.55 ± 0.14 and 3.81 ± 0.16 μM.

Certificate of Internship

21. September 2017

GSI Helmholtzzentrum für Schwerionenforschung operates a unique large-scale accelerator for ions. Researchers from around the world use this facility for experiments which help them make fascinating discoveries concerning the building blocks of matter and the evolution of the universe. In addition, they continually develop novel applications in medicine and technology. In the coming years the new international accelerator facility FAIR, one of the largest research projects worldwide, will be built at GSI.

Ms Jayati Vijaywargiya, born May 28, 1996, participated as an intern in our "Superconducting Magnet Testing" division. It was an obligatory internship from June 19, 2017 until September, 18 2017.

During the eight weeks of the program each participant joined one of the research groups, and worked on a limited scientific project in physics or engineering. In a series of 15 lectures, each 90 minutes in length, the various branches of research and applications with heavy ions (see below) were presented. They were supplemented by soft-skill courses on "Scientific writing" and "Scientific presentations". At the end of the program all participants gave a short seminar talk (20 min.) and wrote a report (4 pages) about the project. All lectures as well as the reports of the students were presented in English language.

To whom it may concern

Successful participation in GET_INvolved Internship and Training Program

This is to certify that **Ms. Anushka Tibrewal**, a student of Bachelors of Technology at Mody University Laxmangarh, Rajasthan India has successfully participated in GET_INvolved Internship and Training Program and completed 03 (three) months (From 29th June 2017 to 28th September 2017) long internship at GSI.

During this period **Ms. Anushka Tibrewal** was working on her internship project titled:

"Modelization/Integration of FRS in FAIR control system"

In the Department of Fragment Separator (FRS) under the supervision of Dr. Stephane Pietri (Academic Supervisor). During her internship program, she successfully contributed to the project and was found punctual, committed, hard-working and inquisitive.

We wish her every success in life.

Dear Juhi Shrivastava,

On behalf of the Global Academy, I am pleased to advise you that you have been accepted into the Cybersecurity Program from June 21st to July 19th, 2018 at Carleton University.

Our Cybersecurity Program is a full time non-credit program conducted on our campus in Ottawa. It is specifically meant for students interested in all aspects of cybersecurity, providing special emphasis on policy challenges, actors and initiatives related to cybersecurity including security of core infrastructure, cyberwarfare, cyberterrorism, and internet safety. The program is four weeks in length and includes experiential learning through weekly industry visits.

You should consult with the Visa or Immigration Section at the nearest Canadian Embassy or Consulate to identify any visa or other entry requirements necessary for you to visit Canada.

Citizens of some countries may require a Visa or Electronic Travel Authorization. Please visit the website below to determine your requirements: http://www.cic.gc.ca/english/visit/visas.asp

Please use this letter as an indication that you have been invited to come to Carleton University in Ottawa and will be hosted by Carleton's Global Academy for the duration of the program which is four weeks.

I look forward to welcoming you to our campus.

Sincerely,

Harry Sharma

This is to certify that Ms. Riya Aggarwal, pursuing her B.Tech. 3rd year at Mody University of Science and Technology has completed an internship at **LiquidHub Analytics Pvt. Ltd.** From 28-May-2018 to 9-July-2018.

Project Name: Restaurant information management system

Description: Collect the sales and inventory data from different chain of restaurants and provide the holistic view of global sales and inventory.

The work involved the following:-

1. Understand the data and global business requirement

2. Created the database in SQL Server to accommodate the data

3. Created SSIS packages to transform and load the data from different sources like flat files, database etc as per business requirement.

Result: Created the global database to fulfill the client business requirement

Her overall performance was good. Her database and SQL knowledge helped in development of this project in short timeframe. Also, her eagerness to learn was recommendable. She worked well as part of a team during her tenure. We take this opportunity to thank her and wish her all the best for her future.

TO WHOM IT MAY CONCERN

Ms. Aaina Bhukar is a 5th year student of Mody University of Science & Technology has worked in my chambers from 1st July, 2017 to 30th July, 2017. During the internship, Aaina assisted me by researching subjects for cases before the Supreme Court of India. She also attended several conferences with clients and attorneys. Her work covered several subjects including Criminal law, Family law, arbitration law, environmental law and property law.

Aaina also worked on important cases like:

- **Asaram Bapu (Gujarat Rape Case)**
- **Coal Block Allocation Matter**
- **State of Rajasthan versus Ganpat Ram**
- **Pallan Export and Import Calcutta Case**
- **Puneet Kumar versus Ekta Kumar**
- **Church Matter (Church of South India Property Dispute)**

Aaina had very seriously assisted me in drafting various Special Leave Petitions, Civil Appeals, Counters and Rejoinder Affidavits.

Aaina has also attended hearings in the Supreme Court, Patiala House Court and NCDRC.

Aaina displayed a high degree of enthusiasm and confidence in tackling the tasks assigned to her. She was willing to work long hours to prepare for cases. I found Aaina to have good research skills, an ability to identify issues and an ability to quickly research topics using SCC Online as well as text books. Aaina is

As is rightly said by Martin Luther King Jr.

"The function of education is to teach one to think intensively and to think critically. Intelligence plus character- that is the goal of true education."

In furtherance of which, Ms. Ayushi Duggad D/o Mr. Bhupendra Duggad, student of 4th Year (8th Semester), College of Law and Governance, Modi University, Laxmangarh, Sikar has undergone internship in my office for the period 23rd June, 2017 to 23rd July, 2017.

During her internship she was involved in various legal matters ongoing at our firm's Jaipur office and was exposed to work related to drafting of agreements, legal notices, preparing case briefs, attending court proceedings in the Rajasthan High Court, State Consumer Dispute Redressal Commission, Family Court, DRT etc.

She reflects immense capabilities of doing research in various disciplines of law.

Throughout the said period, she was committed towards work and her efforts were honest and sincere. As has rightly enunciated by Aristotle:-

"The roots of education are bitter, but the fruit is sweet."

I wish her a very prosperous future and bright career ahead.

TO WHOMSOEVER IT MAY CONCERN

This to certify that Miss Laksmi Priya has successfully completed her internship programme with Genrev Architronics Enterprises from 5th February, 2018 to 5th June, 2018. Working with Ms. Lakshmi has been a pleasnt experience. Her keen insight into designing and presentation in appreciable. As part of the design team, she has been a dedicated and hard working learner.

Ms. Laksmi has left the services of the company at her own accord and we wish her all the success in her forthcoming endeavors.

Best Wishes

TRAINING CERTIFICATE

This is to certify that Ms. **Anees Fatma** bearing the Enrollment. No: **150001** of 4th year B.Arch. at **School of Architecture and Planning - Mody University, Lakshmangarh** has been working in our organization as an Architectural Intern from **04-06-2018 to 16-11-2018** under the supervision of **Ar. Amal Ali** and is being relieved from this office on **17-11-2018.**

During her Internship, she has worked on the Sacred Groves Ecological housing project and have been exposed to various earth building techniques. She has been very enthusiatic,dedicated,hardworking and also took up initiatives and delivered a neat job!

Her contribution to the project has been good!

Yours's sincerely,

EXPERIENCE CERTIFICATE

To Whomsoever it may concern

This is to certify that Ms. Arpita Deshmukh, daughter of Sanjay Deshmukh, a student of Mody School of Architecture and Planning has successfully completed 7 months long internship programme from 16th June, 2018 to 14th December, 2018 at our firm. During the period of internship she was found to be punctual, hardworking and inquisitive.

We wish her every success in her future endeavours.

Yours sincerely,

Manish Naik

Preface

Introduction to the Course

It is desirable that every student of Engineering need to acquire profound knowledge of the basics and applications of Engineering Chemistry. The Engineering Chemistry book is designed to fulfil the requirements of learning of the basic concepts, theory and technical applications. The book is exclusively best suited for I/II year semester students of B.E/B.Tech of any technical universities of India. The entire 23 chapters written in the book cover almost all the topics related to engineering aspects of Chemistry.

Target Audience

Since, the book is widely accepted for I/II year semester students of B.E/B.Tech of any technical universities of India, the book emphasizes on the basic concepts of chemistry and lays stress on the fundamental principles and motivates every students to acquire profound knowledge for real applications.

Objective of the Revision

The main objective of revision is to incorporate prime interest topics like 'Nanoscience and Nanotechnology', 'Thermal Analysis' and 'Supercapacitor', which are added to the first edition. In addition, two new chapters—'Lubrication' and 'Dynamical Analytical Methods' are included in the second edition of the book. Minor changes are effected in Chapter 1 and Chapter 2 to update the syllabi of technical universities.

Roadmap to Target Course

The content of the second edition of the book contains 23 chapters which will cater to the needs of student community of any technical universities in India and abroad. The chapters included in the book have logical flow, comprehensive coverage of topics, extensive illustrations, simple and clear to understand for any student. The book is ideally suited for I/II semester students of B.E/B.Tech of any technical [illegible]

Dear Mr Joshi,

The Secretariat of the International Atomic Energy Agency (IAEA) is pleased to inform you that you have been designated by your institution as a participant in the **Annual Meeting of the International Nuclear Security Education Network** to be held at the IAEA's Headquarters in Vienna, Austria, from **9 July 2018 to 13 July 2018.**

The purpose of the event is to plan for educational activities in nuclear security, review implementation and revise, as necessary, the INSEN action plan, report on new and on-going activities of INSEN members and discuss cooperation and collaboration with the International Network for Nuclear Security Training and Support Centres (NSSC).

The event will be held in English.

The event will commence at 09:00 on Monday, 9 July 2018, in Room M BR A, Building M, of the Vienna International Cer[illegible] 1/Gate 1 of the VIC one hour before the start of th[illegible] ne for your grounds pass to be issued, as such pass[illegible]

Subject: Fwd: Fwd: Greetings

6th May 2019

Dear Dr. Sharma

Thank you very much for your interest to join the **"Recent patents on Engineering"** as an Editorial Board Member. Unfortunately, due to the overwhelming positive response, the vacant positions on the board were filled very quickly. However, considering your interest in the journal, we would like to invite you to join the journal as a **"Bentham Science Ambassador"** from your country **"INDIA"**.

Benefits available to Bentham Science Ambassadors:

Bentham Science has developed a comprehensive system of rewards and benefits for Bentham Science Ambassadors some of which are mentioned below:

1. You will receive a certificate for acknowledgement for joining and rendering your services as Bentham Science Ambassador
2. As a Bentham Science Ambassador, you would have the possibility of having your first article(s) published in any Bentham Science journal of your choice, for FREE. For a listing of journals please refer to our website. If you would refer more researchers to publish articles in our journals, we will be pleased to publish their articles at 25% discounted publishing rates.
3. The most active Ambassadors can avail **discounts on conferences supported by Bentham Science in respect of registration fee**.
4. Your name and affiliation will be mentioned on a dedicated Bentham Science Ambassadors webpage which will help you in your promotional activities as your position will be visible for the visitors on the website.

The responsibilities of Bentham Science Ambassadors would be to:

a) Introduce and promote Bentham Science journals among librarians, colleagues and researchers in your region.

b) Encourage submission o[illegible] field, from eminent scientists.

This to certify that **Ms. Asha**, a student of BA, LLB (Hons.) 4th Year, from Mody University (School of legal Studies) Laxmangarh (Sikar) Rajasthan has done internship under me in Supreme Court of India, New Delhi (India) from 26th June, 2018 to 23rd July,2018.

During the internship she has worked on various issues under provisions of Corporate Laws, Company Act, Banking Laws, Contract Law, Property Law, Arbitration, Consumer Protection Act, Constitutional law, Matrimonial disputes as well as other Civil & Criminal Laws. She also provided her assistance in drafting and research work in Supreme Court of India.

During the internship she also assisted the associate Advocate & Senior Associates of the firm and some other firms as well while appearing before the High Court of Delhi and Supreme Court of India also in different matters as stated hereinabove and participated in arbitration proceedings before Arbitrator.

I found her hardworking, resourceful and diligent. She showed punctuality and dedication towards work assigned to her.

I wish all the best in her future endeavors.

"CERTIFICATE OF INTERNSHIP"

To Whomsoever It May Concern

This is to certify that Ms. Mohini, student of 2nd Year (B.A, LL.B Five Year Integrated Course) of College of Law and Governance, Mody University, Lakshmangarh, Rajasthan has done internship with me from 20th of June to 23rd of July 2018.

That during the course of her Internship she conducted research works on legal queries subjecting to Code of Criminal Procedure Code and Civil Procedure Code, Indian Penal Code, Indian Contract Act, Constitutional matters, etc.

That apart from this she also regularly attended the Hon'ble Patna High Court Proceedings in matters relating to Public Interest Litigation Matters (PIL), Civil Writ Jurisdiction Cases (CWJC), Miscellaneous Jurisdiction Cases (MJC), Criminal Miscellaneous and Criminal Appeal Matters, etc.

During the course of her internship, I found that Ms. Mohini is a sincere student of Law.

I wish her all success in future.

TO WHOMSOEVER IT MAY CONCERN

1- This is to certify that Ms. Mugdha Singh D/o Dr. K.N. Singh, student of Mody University,Lakshmangarh,Sikar and pursuing Integrated B.A. , L.L.B. Programme , attended one month of training with us from 01 June 2018 to 30 June 2018.

2- She has worked under a project initiated by Police Department, Udaipur Range in collaboration with the Education department and UNICEF Rajasthan for ensuring Child Protection in Udaipur division under the guidance of Child Protection Consultant of Udaipur Division.

3- A brief description of activities carried out and the scholar's performance during the training tenure is as follows :-

The scholar was oriented on new Juvenile Justice Act 2015 , Protection of Children from Sexual Abuse Act 2012 and Safe School Components, during which scholar created various formats and prepared presentations to evaluate protection related issues, thereby providing support to the range level training providers and law makers. She also actively participated in field activities like visit of child friendly police stations in Dungarpur and safe school components in police stations and schools of Rajsamand districts.

4- We have found from our observation during the tenure of training that the scholar is dedicated, hardworking and sincere towards her responsibilities.

We wish her all the best for her future endeavors!!

TO WHOMSOEVER IT MAY CONCERN

As it is rightly said by Mertits Luther King Jr.

"The function of education is to teach one to think intensively and to think critically. Intelligence plus character, that is the goal of true education."

In furtherance of which, Ms Neha Batar D/o Mr. Vijay Singh Batar, student of 5th year (10th semester), College of Law and Governance, Mody University, Lakshmangarh, Rajasthan has undergone internship in my office for the period 1st April 2018 to 30th April 2018.

During the internship she has involved in various legal matters ongoing at my Jaipur office and was exposed to work related to drafting of agreements, legal notices, preparing case briefs, attending court proceedings in Rajasthan High Court Jaipur Bench.

She reflects immense capabilities of doing research in various disciplines of law.

She undertook assignments concerning Income Companies Act, Arbitration and Conciliation Act, Civil Procedure Code, and Criminal Procedure Code. Throughout the said period, she was committed towards work and her efforts were honest and sincere. As has rightly enunciated by Aristotle:-

"The roots of education are bitter, but the fruit is sweet."

I wish her a very prosperous future and bright career ahead.

This is to certify that **Ms. DIVYANSHA GOYAL,** D/o Mr. AMBRISH GOYAL has worked as an **INTERN** with the LadliFoundationTrust ® **from 23rdMAY 2018 to 6th July 2018.**

Ladli Foundation Trust is a verified non-profit organization renowned for its unique initiatives for empowering & rehabilitating thousands of unprivileged and uneducated females in slums & rural parts of India. Lying at the heart of Ladli foundation is the vision of creating a gender-neutral country by attempting to bring about a radical change in the mindsets of the people. It aims to establish the largest-ever workforce of LAADLI RAKSHAKS (*Saviour of Women) in every house* to promote the cause of gender equality and women safety. Ladli is also awarded with the official association of **Delhi Police** Department for its effective ground activities, outreach and innovative initiatives like **#RunForLaadli, LaadliRakshak, #Saheli**, etc. For the last seven years, ladli is involved in enhancing the quality of life of the socially victimized young women and has directly benefitted more than 15000 girls through its originative projects. The foundation has garnered a number of commendations from celebrated personalities **including Shri Amitabh Bachchan, Home Minister of India, Cabinet Ministers** and other well-known diplomats and dignitaries.

During her period of working with The Ladli Foundation Trust, she has devoted her valuable expertise and played an important role in executing the following activities and projects -.

1. **SAHELI** - Sensitizing young females in slums with their mothers about sexual abuse, personal hygiene and free health checkups.

2. **RESEARCH** on Plight of Women in India.

RESEARCH FROM NCRB, NFHS ,NACO.

3. **AWARENESS CAMPS** organized by the foundation in various slums of Delhi.

She possesses good computer operating skills, good understanding of **IndianEconomy** and **Sociology** of Women in India. She is a good team leader and is always keen on being associated with projects working for the betterment of Society.

I wish her great future ahead.

TO WHOM SO EVER IT MAY CONCERN

It is a pleasure writing a recommendation letter for **Ms. Gayatri Goswami,** student of V year B.A. L.L.B (X semester), **Mody University of Law and Governance** who did her internship at my office here at **Ashok Mehta & Associates Jaipur,** from 01/04/2018 to 10/05/2018.

She interned for 5 weeks in the chamber. Her research was appreciable and she displaced good analytical skills in doing her work here. She studied various case files relating to Contract, Medical Negligence and Accidental claims and also made notes on Specific Performance Of Contract, Medical Negligence and Accidental claims.

She displayed a keen interest in her work and showed dedication. Her work has been praise-worthy she showed compliance with a office decorum and discipline. She was very receptive and at the same time demonstrated individuality and intellect.

I wish **Ms. Gayatri Goswami** all the success in the future and hope that she will keep up the good work in the future as she has the making to become a good legal professional.

She made valuable contributions to the undergoing projects of the firm, which includes working on preliminary analysis, working drawings, presentation drawing, and conference presentations and understanding the execution of projects under taken by the association.

We generously, appreciate her dedication towards work and facing various challenges regarding all veriety of work assigned to her. She demonstrated good design and presentation skills with a self-motivated attitude to learn new things. We found her optimist, sincere, hardworking, honest and respectful.

We wish Miss. Priya Agarwal all the best for all her future endeavors and look forward working with her again in future.

VISIONS

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Ms. Jigisha Jain from Mody University of science and technology completed her Interior Design internship from Jan-14-2019 to May-14-2019 under the guidance of Mrs. Payal Kapoor.

Her performance was best contributed towards the research part tasks assigned to her. We found her to be self- motivated and inquisitive about the new materials, techniques and methods introduced during the course of her internship.

She is always willing to offer her assistance and has an excellent rapport with the team members as well.

We wish her all the best for her future endeavors.

This is to certify that **Ms. NIRA JOSHI** (Bachelor of Interior Design) (enrollment no:160698) from **MODY UNIVERSITY, LAKSHMANGARH** has joined our firm for the training purpose during 7th january 2019 and has worked up to 30th april 2019.

We have found her extremely sincere and dedicated to her work, perceptive to the knowledge and skills imparted to her with analytical and logical approach to the designing.

She has been involved in all aspects of office work i.e. making the drawings, meeting with clients,etc. She has been encouraged to visit sites and has been given some exposure to material.

We have found her overall performance excellent.

I am sure she would turn out to be a good and useful designer to the society.

We wish her a bright & successful future.

Ms Preeti Sangwan
Village-Balali
Dist.-Charkhi Dadri
Bhiwani 127310 [Haryana]

Dear Ms Preeti,

This has reference to your application MATS31 for an IASc-INSA-NASI Summer Research Fellowship in 2019. We are happy to offer you a Fellowship to work for two months during this summer subject to verification of your marks as stated by you in the application with the marks sheets. You will be working with Dr Tanvi Jain, Indian Statistical Institute, New Delhi (e-mail: tvi.jain@gmail.com, tanvi@isid.ac.in).

We have tried as far as practicable to assign you to a guide who works in your area of interest. Where that has not been possible, you will work with the assigned guide in a related area that will be determined by the guide, and trust that the experience will be fruitful to you. We will not be able to make any change in this regard.

This Fellowship is subject to the following norms:

* The duration of the Fellowship is eight weeks (56 days - including Sundays and General Holidays), and is not to be reduced. If you do not complete this requirement, you will not be paid the fellowship amount and the certificate that is usually issued on completion.
* You will be provided a second class [sleeper class] train fare from Bhiwani or Sikar to ISI, New Delhi and back.
* If you are NOT an INSPIRE/KVPY Fellowship holder, you will be paid a Fellowship of Rs. 12,500/- per month towards your boarding, lodging, local transport expenses*. Those who are in receipt of INSPIRE/KVPY Fellowship will be covered by a separate arrangement, the details of which will be sent later.
* For all those working in institutions in New Delhi, INSA will coordinate in making the accommodation arrangements at IIT - New Delhi and Miranda House (for girls) during mid-May to mid-July. Those working during other period are requested to make their own accommodation arrangements. Dr (Ms) Seema Mandal will act as the co-ordinator and she can be contacted by e-mail (sci-soc@insa.nic.in); off. Tel. (011) 2322 1931 to 1950 [Ext. 459]. You are requested to contact Dr Mandal.

Sub: **Regarding internship training.**

Sir,

Kindly reference to your university e-mail dated 12.04.2019, on the subject cited above.

2. Permission is hereby accorded in favour of following students of your institute, as per detail mentioned below with following conditions:-

Sr. No.	Students Name	Trg. Date
1.	Ms. Chinky Jangir	01.06.2019 to 29.06.2019
2.	Ms. Neha Joshi	-do-
3.	Ms. Shivi Pareek	-do-
4.	Ms. Bhawana Bhakal	-do-
5.	Ms. Priyanka Panwar	-do-
6.	Ms. Ankita Shekhawat	-do-
7.	Ms. Inu Godak	-do-
8.	Ms. Biri Dungam	-do-
9.	Ms. Roshani Basu	-do-

1. The int. /attachment training fee is Rs. 2,500 (per students)
2. The internship trainees will be working at their own risk and cost and DFS HP Junga or the State Government shall not be responsible for any eventuality during internship/training.
3. We have no official accommodation for stay.
4. If the above students do not report in our institute on the allowed date their permission shall automatically be cancelled.

Subject: **Reviewer Invitation for Reviews in Inorganic Chemistry: REVIC.2(**

Date: Tue, 09 Oct 2018 21:14:27 IST

Dear Dr. Singh,

Manuscript
ID REVIC.2018.0017
entitled "Nitric oxide releasing molecules at the interface of inorganic chemistry and b overview"
by Mir, Jan Mohammad; Maurya, R

has been submitted to Reviews in Inorganic Chemistry (REVIC).

I would like to invite you to evaluate the above manuscript with respect to its suitabilit REVIC. Your expertise in the subject matter of this manuscript will facilitate the editor to accept or reject this manuscript based on its scientific content.

In order to accept the invitation, please click the link below to automatically register w manuscript submission and review system, or e-mail me with your reply.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

Agreed: https://mc.manuscriptcentral.com/revic?URL_MASK=bfc60b1f175a4897822ccfc5dad80d6d

Declined: https://mc.manuscriptcentral.com/revic?URL_MASK=fff02fcfb089477d85be1ee70a23ab4b

If you are unable to review at this time, I would appreciate you recommending another expert reviewer. Please click the appropriate link at the bottom of the page. This will open a window where you may enter the name and e-mail address of one or more potential reviewers and comments. You may also e-mail me with your reply.

Once you accept my invitation, you will be notified via e-mail how to access the manuscript and the reviewer instructions.

We would appreciate your reply to this invitation within the next 3-5 days, and receipt of your review within approximately 2 weeks after acceptance.

In case you are willing to evaluate the manuscript but are unable to meet the deadline, please immediately inform the Editorial Office by e-mail at rev.inorg.chem.editorial@degruyter.com.

I realize that our expert reviewers greatly contribute to the high standards of the Journal, and I thank you for your present and/or future participation.

Kind regards,
Axel Schulz

MANUSCRIPT DETAILS

TITLE: Nitric oxide releasing molecules at the interface of inorganic chemistry and biology: a concise overview

AUTHORS: Mir, Jan Mohammad; Maurya, R

ABSTRACT: This manuscript is an update of some important concerns about nitrosyl complexes having the ability to act as nitric oxide releasing compounds under the influence of different chemically modified environments. In current times seek for efficient and less harmful NO releasing molecules at desirable target and concentration has gained momentum in nitrosyl chemistry. Iron, ruthenium and manganese nitrosyls have been investigated to a considerable extent to disentangle their electronic transition (excitation) under visible light to act as NO donor without harming healthy cells of a target. There are many evidences supporting the NO-lability to be increased if amino acids are used as complexing ligands, design of reduction centre close to an NO grouping and development of porphyrin system based nitrosyl complexes. From the overall survey it may be concluded that desirable properties of such scaffolds need to be evaluated further to well suit with biological milieu.

To: "Dr. Har Lal Singh" <hlsingh9@rediffmail.com>

Subject: **Welcome to Editorial Manager for Polyhedron**

Date: Thu, 04 Apr 2019 16:16:28 IST

Dear Dr. Har Lal Singh,

The editorial submission site for Polyhedron has been upgraded to Editorial Manager account information and complete submission history are now available in EM.

Your username is: hlsingh9@rediffmail.com.
When you log into the system for the first time you will need to create a password he https://www.editorialmanager.com/polyh/l.asp?i=127976&l=Y1NV6JZQ

You can access the new EM site for Polyhedron here:
https://www.editorialmanager.com/polyh/

Please make note of your username and password which you will need for future logi your details at any time by clicking "Update My Information" in the menu bar at the to

Your EM credentials are not linked to your Elsevier Profile. The username/password Elsevier Profile remain unchanged.

You will notice the look and feel of EM is very similar to EES.

For more information on using EM, please refer to Aries Systems' user Tutorials and Video Library:
https://www.ariessys.com/for-current-customers/tutorials/
https://www.ariessys.com/views-and-press/resources/video-library/
You can also access these videos by clicking the "Play" icon in the top right corner of the EM site.

If you require any assistance, please contact support@elsevier.com.

Sincerely,
Polyhedron

In compliance with data protection regulations, you may request that we remove your personal registration details at any time. (Use the following URL: https://www.editorialmanager.com/POLYH/login.asp?a=r) Please contact the publication office if you have any questions.

Subject: **Phosphorus, Sulfur, and Silicon and the Related Elements - Invita Manuscript ID GPSS-2018-0349**

Date: Fri, 28 Dec 2018 20:46:39 IST

28-Dec-2018

Dear Dr Har Lal Singh:

The above manuscript, entitled "Organic-Inorganic Hybrid Complexes of Lead (II) of S Heterocyclic β-diketones and Flexible N-Protected Amino Acids" with Dr Jain as cont submitted to Phosphorus, Sulfur, and Silicon and the Related Elements.

I would be grateful if you would kindly agree to act as a reviewer for this paper. The a the end of this letter, along with the names of the authors.

Please let me know as soon as possible if you will be able to accept my invitation to r please either click the appropriate link below to automatically register your reply with manuscript submission and review system, or e-mail me with your reply.

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be d webpage to confirm. ***

Agreed: https://mc.manuscriptcentral.com/gpss?URL_MASK=a47c2864863a4cddbc77b03a15181f93

Declined: https://mc.manuscriptcentral.com/gpss?URL_MASK=6b9d66afebff47ffb492092d5d2f6846

Unavailable: https://mc.manuscriptcentral.com/gpss?URL_MASK=b324a53f97ed490dbc4a1af12d9980fd

Should you accept my invitation to review this manuscript, you will be notified via e-mail about how to access Manuscript Central, our online manuscript submission and review system. You will then have access to the manuscript and reviewer instructions in your Reviewer Center.

I realise that our expert reviewers greatly contribute to the high standards of the Journal, and I thank you for your present and/or future participation.

Sincerely,
Dr Rudd

MANUSCRIPT DETAILS

TITLE: Organic-Inorganic Hybrid Complexes of Lead (II) of Sterically Demanding Heterocyclic β-diketones and Flexible N-Protected Amino Acids

AUTHORS: Jain, Dr. Asha ; Maheshwari, Karuna; Saxena, Sanjiv

ABSTRACT: A new set of organic-inorganic hybrid complexes of lead(II) of sterically demanding heterocyclic β-diketones and flexible N-protected amino acids of composition where R = C6H5, p-ClC6H4, CH3 and R' = CH(CH3)C2H5, CH2CH(CH3)2 and CH(CH3)2) was generated by the reactions of freshly prepared lead isopropoxide with sterically demanding heterocyclic β-diketones (LH) and flexible N-protected amino acids (AH) in 1:1:1 molar ratio in refluxing dry benzene . These lead(II) complexes of mixed organic ligands were characterized on the basis of physico-chemical and spectroscopic studies.

Be aware that the journal is now asking reviewers – when suggesting rejection – to clearly note if the paper is academically or scientifically unsound, or if it is merely unsuitable for this journal. The final decision on acceptance of papers will continue to rest with the journal's editor.

By reviewing this manuscript you agree for your review and comments to be seen confidentially by editors of other related Taylor & Francis journals if the manuscript is rejected and subsequently transferred. This supports a system of portable peer review.

Subject: **Thank you for submitting your review of Manuscript ID LSRT-201 and Nano-Metal Chemistry**

Date: Sun, 25 Nov 2018 22:06:58 IST

25-Nov-2018

Dear Dr Singh:

Thank you for reviewing the above manuscript, entitled "Three new anti-peptic ulcers Synthesis, spectroscopic, thermal and anticancer studies of WVI, SilV and HflV cimet chelations" for Inorganic and Nano-Metal Chemistry.

We greatly appreciate the voluntary contribution that each reviewer gives to the Journ we may continue to seek your assistance with the refereeing process for Inorganic ar Chemistry, and hope also to receive your own research papers that are appropriate t scope.

Sincerely,
Dr. Raghuraman Kannan
Associate Editor, Inorganic and Nano-Metal Chemistry

Journal of Coordination Chemistry Reviewer notification of decision on Manuscript GCOO-2019-0136

Journal of Coordination Chemistry <onbehalfof@manuscriptcentral.com> Wed, May 15, 2019 at 5:57 AM
Reply-To: jatwood@buffalo.edu
To: jatwood@buffalo.edu

14-May-2019

Dear Reviewer,

Thank you for reviewing the manuscript GCOO-2019-0136 entitled "Synthesis, characterization, crystal structure, and electrochemical property of three copper(II) complexes with 3, 5-dihalosalicylaldehydes Schiff bases derived from amantadine" for Journal of Coordination Chemistry. We greatly appreciate the voluntary contribution that each reviewer gives to the Journal and hope that we may continue to seek your assistance with the refereeing process for Journal of Coordination Chemistry.

The decision that we arrived at for this article was: Major Revision, basing the decision on your review, those of the other referees, and Editors.

A copy of your comments to the author, along with those of any other referees, follows at the end of this letter for your information. Any files that referees uploaded for the attention of the author are attached as a PDF proof.

Yours sincerely,

Jim Atwood
Editor
Journal of Coordination Chemistry

Referee comments to the author:
Reviewer: 1

Comments:
The manuscript by Jin et al describes the synthesis and characterization of three Cu Schiff base complexes varying in halogen substituents. The syntheses and characterizations, including crystal structures, are well described and appear to be of high quality. I think this is a fine study, but it lacks some control experiments in the electrochemistry section and does not have much discussion in the results and discussion sections. The results and discussion sections are mostly a list of results without too much discussion, and this is especially apparent in the electrochemistry section. With these comments in mind, I recommend acceptance for publications after major revisions. My point-by-point comments are below:

(1) On page 8 of 39, there is a section on the IR spectra but the manuscript does not contain those spectra. Given the discussion of vibrational changes, the authors should include IR spectra just like they have included the UV-vis spectra.
(2) On page 11 of 39, in the electrochemistry section, the authors should state what the reference is for their measured potentials. Instead of listing "-0.752 V" it should be "-0.752 V vs Ag/AgCl" in order to avoid confusion for readers.
(3) On page 11 of 39, in the electrochemistry section, the authors should perform control experiments by measuring the cyclic voltammograms of the ligands (no Cu), CuX2 (no ligands), and the solvent (no ligands or Cu). This will help confirm the quasi-reversible redox couple is from the complexes and not an unexpected species.
(4) On page 11 of 39, in the electrochemistry section, from the potentials listed it appears that all of the complexes have a similar midpoint potential. Why? This is where the discussion should come in. Is there no effect of the halogen substituent on the electrochemical properties of these complexes? Is this expected?
(5) On page 11 of 39, in the electrochemistry section, the authors should perform additional cyclic voltammetry on the complexes in a solvent other than DMF. It is possible that, since DMF is a highly coordinating solvent, the Cu center might be interacting with DMF in a non-negligible manner. Perhaps the authors can try cyclic voltammetry in dichloromethane? If the midpoint potentials are about the same in dichloromethane, then it will appear that the halogen substituent has no effect. If the midpoint potentials of the complexes differ in dichloromethane, then that suggests DMF is responsible for all of the electrochemical potentials being about the same.
(6) On page 29 of 39, the x-axes of the cyclic voltammograms should contain units and what they are referenced to. In this case, it should probably read "Potential (V vs Ag/AgCl)".

Dear sir,

I have the honour to inform you that you have been nominated to act as an External Examiner of the Viva-voce of following Examination to be held in December 2018.

Examination : PhD (Mathematics)

Student's Name : Mr. Ashok Kumar(15BS/MT/9001))

Title of the Thesis: Study of free and mixed convection heat and mass flow in real fluids through porous medium

Date of Examination: 12/Dec/2018 (Wendnessday)

Time : 11.30 AM

Place : MVN University, Palwal

Kindly intimate your availability and acceptance for the same through E-mail.

Note: You will be paid Honorarium and TA/DA as per MVN University norms

Regards

Dr. Jay Shankar Prasad

Thesis Evaluation Form.pdf; Ashok_ thesis pdf.pdf; Remuneration Bill.pdf;

We greatly appreciate your consent for agreeing to review the thesis entitled **"Study of free and mixed convection heat and mass flow in real fluids through porous medium"** submitted by **Mr Ashok Kumar (Registration No. 15/BS/MT/9001)** under the Supervision of Dr Jyoti Chawla. Please find attached the following documents for your kind reference:

1) Complete Thesis (in PDF Format)
2) Thesis Evaluation Form
3) Remuneration Bill (Payment mode: Cheque/ Online Fund Transfer)

Please send the scanned copy of filled thesis evaluation form(with remarks on a separate sheet) to the undersigned on email : jayshankar.prasad@mvn.edu.in after evaluation of the thesis at first, the hard copy of the thesis evaluation form, remarks on separate sheet and remuneration bill shall reach to us either by post or personally in a sealed envelop to:

Chairman (DPC)
MVN University,
74th KM stone, Delhi- Mathura Highway(NH-2)
Palwal- 121105
Phone :8814822239

For any query/doubt, you can contact the undersigned anytime.

Thanks a lot for evaluating the thesis in advance.

Best Regards,

Jay Shankar Prasad

Title: Study of transmission property of periodic layer consisting of SiO2 and TiO2 layers with anisotropic liquid crystal (LC) and LiNbO3 as defect layers for optical switching
Journal: Results in Physics

Dear Dr. Narendra,

Thank you for your review for the above-referenced manuscript. I greatly appreciate the commitment of your time and expertise. Without the dedication of reviewers like you, it would be impossible to manage an efficient peer review process and maintain the high standards necessary for a successful journal.

When a final decision has been reached regarding this manuscript you will be able to view this decision, as well as reviews submitted by any other reviewers, at: http://www.evise.com/evise/faces/pages/navigation/NavController.jspx?JRNL_ACR=RINP. You can also access your review comments here, at any time.

I hope that you will consider Results in Physics as a potential journal for your own publications in the future.

Kind regards,

K.H. Jurgen Buschow
Editor in Chief
Results in Physics

Reviewer Invitation for Journal of Optical Communications: JOC.2017.0171.R1

Journal of Optical Communications <onbehalfof@manuscriptcentral.com> Thu, Nov 8, 2018 at 3:37 PM
Reply-To: rthkersten@t-online.de
To: nkumar.mu.in@gmail.com

Dear Dr. Kumar,

A revised manuscript has been submitted to the Journal of Optical Communications:

Manuscript ID: JOC.2017.0171.R1
Title: "Slow light investigation on power consumption of Lithium Niobate Phc switch based on linear electro-optic effect"
Author(s): gharsallah, zaineb; Najjar, Monia; vjanyani, vijay

I would like to invite you to evaluate the above manuscript with respect to its suitability for publication in JOC. Your expertise in the subject matter of this manuscript will facilitate the editorial decision whether to accept or reject this manuscript based on its scientific content.

In order to accept the invitation, please click the link below to automatically register with our online manuscript submission and review system, or e-mail me with your reply.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

Agreed: https://mc.manuscriptcentral.com/jooc?URL_MASK=0573dfa6777540b5b73f3b90f2b85f8e

Declined: https://mc.manuscriptcentral.com/jooc?URL_MASK=070b98be78184eac87d0064cf8f925b9

Unavailable: https://mc.manuscriptcentral.com/jooc?URL_MASK=65dd7a6f397644bda6cf7d90f14828e9

If you are unable to review at this time, I would appreciate you recommending another expert reviewer. Please click the appropriate link at the bottom of the page. This will open a window where you may enter the name and e-mail address of one or more potential reviewers and comments. You may also e-mail me with your reply.

Once you accept my invitation, you will be notified via e-mail how to access the manuscript and the reviewer instructions.

We would appreciate your reply to this invitation within the next 3-5 days, and receipt of your review within approximately 2 weeks after acceptance.

In case you are willing to evaluate the manuscript but are unable to meet the deadline, please immediately inform the Editorial Office by e-mail at rthkersten@t-online.de.

I realize that our expert reviewers greatly contribute to the high standards of the Journal, and I thank you for your present and/or future participation.

Kind regards,

Prof. Ralf Kersten

MANUSCRIPT DETAILS

TITLE: Slow light investigation on power consumption of Lithium Niobate Phc switch based on linear electro-optic effect

AUTHORS: gharsallah, zaineb; Najjar, Monia; vjanyani, vijay

ABSTRACT: In this work, an optical switch based on electro-optic effectis reported. We used defect mode in two-

dimensional photonic crystal made of Lithium Niobate. Under an applied voltage of 3V, a refractive index change of -0.0702 is obtained which has led to a transmittance contrast about 60% for the ON state. Moreover, Slow light structure performance is investigated to optimize proposed optic switch. Due to elliptic shape of holes, the applied voltage is decreased to 0.5 V. Also, a refractive index change decrease around -0.0481 and a transmittance contrast increase 65%, have been observed. We used plan wave expansion and finite difference time domain methods to analyze the structures performances. It is seen that the defect mode shifts about 40 nm and a switching length of 6.48μm are obtained with drive voltage of 3V for simple structure and only 0.5 V for slow light structure.

Tentative Outline

Special Thematic Issue for the journal: *International Journal of Sensors, Wireless Communications and Control*

Recent Development in Cloud Computing, IoT, machine Learning, Wireless Sensor Networks, Computer Vision and their Applications

Guest Editors: Dr. Mohit Agarwal (Lead Guest Editor)

Dr. Ajay Kumar Singh (Associate Guest Editor)

- **Scope of the Thematic Issue:** Internet based technologies such as Cloud Computing and IoT emerged out as a most popular and reliable technologies in last 10 years. Cloud based computing model find their importance in both academia and industry as well as the services offered by the cloud service provider are available and accessible round the clock. Internet of Things results in exponential increase in the number of connected devices which includes sensors, smart phones, smart watches and other internet enabled gadgets as well which are responsible for the generation of continuous and massive amount of data. As a result, various techniques are used to decode the pattern which are can prove their importance for the researcher and industry as well. Analysis of such data can be easily performed by deploying the algorithms based on machine learning which already prove their efficiency in the area of computer vision and the related field.

The motivation behind this special issue is to provide the researchers across the world an opportunity to showcase their findings in their research area.

Keywords: Cloud Computing, Internet of Things (IoT), Computer Vision, Wireless Sensor networks (WSN), Machine Learning, Deep Learning, Convolution Neural network, Soft Computing.

Topics of interest include, but are not limited to:

Sub-topics:

The sub-topics to be covered within the issue should be provided:

- Security in Cloud Computing
- Resource Management in Cloud Computing
- IoT framework and architecture
- Machine Learning and its application
- Computer Vision
- Wireless Sensor Network
- Deep Learning
- Network and Network Security
- Cognitive Science
- Application and hybridization of Metaheuristic techniques
- Biomedical & Informatics

Lakshmangarh, Sikar

Respected Sir,

On behalf of Raffles University, Neemrana, I am writing to invite you to serve on the Panel of Examiners to evaluate the PhD thesis of Research Scholar.

Details are as below:

Registrar
Mody University of Science and Technology
Lakshmangarh-332311 Dist.-Sikar (Rajasthan)

Name of Research Scholar	: **Mr Ajit Singh Aidhen**
Enrollment No.	: **1601ET001**
Area of Research	: **ME**
Title of Thesis	: **Investigating Performance of Centrifugal Pump in Turbine Mode**

Name of Research Supervisor: **Dr. Sandeep Malik, Assistant Professor**

On receipt of your acceptance, a copy of Thesis (Hard Copy) will be sent to you for evaluation. If for some r... ...tion please write to us by return email on (coe@... ...9990446382.

A copy of "**Honorarium for Ph.D. thesis evaluation /Examination**" is being attached

Subject: Fwd: Fwd: Greetings

6th May 2019

Dear Dr. Sharma

Thank you very much for your interest to join the **"Recent patents on Engineering"** as an Editorial Board Member. Unfortunately, due to the overwhelming positive response, the vacant positions on the board were filled very quickly. However, considering your interest in the journal, we would like to invite you to join the journal as a **"Bentham Science Ambassador"** from your country **"INDIA".**

Benefits available to Bentham Science Ambassadors:

Bentham Science has developed a comprehensive system of rewards and benefits for Bentham Science Ambassadors some of which are mentioned below:

1. You will receive a certificate for acknowledgement for joining and rendering your services as Bentham Science Ambassador
2. As a Bentham Science Ambassador, you would have the possibility of having your first article(s) published in any Bentham Science journal of your choice, for FREE. For a listing of journals please refer to our website. If you would refer more researchers to publish articles in our journals, we will be pleased to publish their articles at 25% discounted publishing rates.
3. The most active Ambassadors can avail **discounts on conferences supported by Bentham Science in respect of registration fee.**
4. Your name and affiliation will be mentioned on a dedicated Bentham Science Ambassadors webpage which will help you in your promotional activities as your position will be visible for the visitors on the website.

The responsibilities of Bentham Science Ambassadors would be to:

a) Introduce and promote Bentham Science journals among librarians, colleagues and researchers in your region.

b) Encourage submission of [illegible] field, from eminent scientists.

ICITMSD-2019: Special Issue on: "Se ed Cloud Computing"

Guest Editors:
Dr. Niranjan Lal, Dr. Anand Sharma, Mody University of Science and Technology, India
Prof. V.K. Panchal, Shri Balwant Institute of Technology, India
Prof. S.C. Sharma, Indian Institute of Technology Roorkee, India

Cloud computing has firmly established itself as an indispensable utility for the digital age, and has become a scalable services consumption and delivery platform in the field of services computing.

Cloud service consumers expect and rely on sufficient computing power, the availability of data and media, and accessibility across a range of devices. The expectation now is that cloud service providers are capable of maintaining streaming services that are always available. The resource sharing at various levels results in various cloud offerings such as infrastructure cloud (e.g. hardware, IT infrastructure management), software cloud (e.g. SaaS focusing on middleware as a service, or traditional CRM as a service), application cloud (e.g. application as a service, UML modelling tools as a service, social network as a service), and business cloud (e.g. business process as a service).

To focus on the emerging area of cloud computing, inspired by the latest advances that concern infrastructure, operations and available services through the global network, this special issue invites authors to share and explore modern services and software sciences in the field of cloud computing. From a technology foundation perspective, cloud computing has become the default discipline in the modern arena.

Subject Coverage
Suitable topics include, but are not limited, to the following:

- Cloud as a service
- Data centres and nano-centres
- Large-scale cloud applications
- Social and mobile clouds
- Cloud computing architectures
- Infrastructure technologies
- Cloud metering and monitoring
- Cloud configuration and capacity manag
- Cloud trustworthiness
- Cloud computing and e-learning platfor
- Cloud computing for development of smart cities

Official Joining Letter: Honorary Peer Reviewer

Dear Sandeep Jaiswal,

It our pleasure to inform you that, your request to be a peer reviewer on honorary basis of GJRE is accepted. Now you are a sole part of our organization. Your complete profile along with your field of interests is now with the registrar's database of peer reviewers. In future, if you wish to add more fields of Interests, simply email us. We will request and ask you to review research paper depending on stability and your concern.

Your Unique Reviewer Id is DP6TI4X5. You will need this Id with Confidential Manuscript Reviewing Key to submit your assessment of submitted paper in future. You can download the certificate after reviewing each paper. We will dispatch you a hardcopy of the certificate after reviewing five papers.

We would like to show you heartiest gratitude and our sincere congratulations on becoming a part of our organization. This vital contribution to our journal will enhance whole research community in a better way. Together we will grow.

Ref: No.100/ Research / Public Viva voce / 2019 Date: 8th July, 2019

To
Dr.J.Visumathi,
Professor, Dept. of CSE,
Jeppiaar Engineering College,
Chennai - 119.

Dear Sir / Madam,

Sub: Ph.D Conduct of Viva Voce Examination Mr.C.J.Raman (Reg.No. 2012791102)

We have received the following of the above mentioned Ph.D scholar:

- Ph.D Thesis Evaluation Reports from National and International Examiners
- Compliance Report of the Suggestions given by the Examiners (Indian & International) duly Signed by the Supervisor

You are requested to conduct the Viva Voce Examination for **Mr.C.J.Raman (Reg.No. 2012791102)** at the earliest, with the following Indian Examiner and Nominee of International Examiner in our University campus.

1. **Dr.A.Senthil, Associate Professor & Head, Dept. of CSE, Modi University of Science and Technology, Rajasthan -332311. (National Examiner) Ph:** 09636460650 **Email:** senthilathithan@hotmail.com
2. **Dr.S.Janakiraman, Assistant Professor, Dept. of Banking Technology, Pondicherry University, Puducherry. [Nominee of International examiner] Ph:** 9443376328. **Email:** jana3376@yahoo.co.in

Finalizing the Date for viva voce:

- You are requested to send a date to Research office (deanresearch@sathyabama.ac.in), after consultation of date with the Examiners by mail.
- The date for viva voce will be finalized by the undersigned, based on the Institute working schedule and other factors.
- Once the Date of Viva Voce is confirmed by the Research Office, the Supervisor is requested to send an Official Letter to conduct the Viva Voce, addressed to Director (Research) atleast 10 days before the conduct of Viva Voce, since the communication has to be sent to various Universities and Research Organisations.
- It is the responsibility of the supervisor to take care of arranging a Minimum of 25 members at PG level to attend the Viva Voce.

You are further requested to instruct the Research Scholar to

- On the day of Final Viva Voce, submit the Thesis Report (Three copies of A5 size with soft copy in PDF format) after incorporating the corrections indicated by the Examiners in the Evaluation Report
- On the day of Final Viva Voce, submit Defending Viva Voce Fee of Rs.10,000/- (Rupees Ten Thousand only) as a Demand Draft drawn in favour of "Sathyabama Institute of Science & Technology" payable at Chennai.

Thanking you
Yours,

Dear Sir/Madam,

The Vice Chancellor has been pleased to appoint you to examine a synopsis on the topic **"Performance Analysis and Enhancement of Big Data Using Hadoop"** Submitted by **Ms. Reshu Grover** in the subject of **Computer Science** for the award or the Ph.D. Degree of the University.

I am directed to attach softcopy of the synopsis submitted by the candidate for evaluation.

We shall be grateful if you could kindly give your expert opinion on the suitability of the Research topic.

If you think the synopsis needs some **modification**, you are requested to mention the points briefly

Please find herewith soft copy of the synopsis submitted by the candidate for evaluation. Blank Proforma for the report and remuneration bill are also attached.

We shall be grateful if you could kindly send your opinion alongwith remuneration bill **within two weeks either through e-mail at researchbanasthali@banasthali.in or postal services** so that further necessary action can be initiated.

Journal of Coordination Chemistry Reviewer notification of decision on Manuscript GCOO-2020-0025

Journal of Coordination Chemistry <onbehalfof@manuscriptcentral.com> Sat, Mar 14, 2020 at 5:50 PM
Reply-To: gepsomas@chem.auth.gr
To: gepsomas@chem.auth.gr

14-Mar-2020

Dear Reviewer,

Thank you for reviewing the manuscript GCOO-2020-0025 entitled "Syntheses Characterization and Biological Activities of an enamine derivative and its Coordination Compounds" for Journal of Coordination Chemistry. We greatly appreciate the voluntary contribution that each reviewer gives to the Journal and hope that we may continue to seek your assistance with the refereeing process for Journal of Coordination Chemistry.

The decision that we arrived at for this article was: Reject & Resubmit, basing the decision on your review, those of the other referees, and Editors.

A copy of your comments to the author, along with those of any other referees, follows at the end of this letter for your information. Any files that referees uploaded for the attention of the author are attached as a PDF proof.

Yours sincerely,

George Psomas
Co-Editor
Journal of Coordination Chemistry

Referee comments to the author:
Reviewer: 1

Comments:
Comments

- The authors can find details in the attached pdf file. The authors can also find the copyediting marks at the end of pdf file. This manuscript needs MAJOR level revisions. When the authors revise their manuscript, the authors must send detailed response for the each of referee comments on the manuscript. When the authors revise their manuscript, the authors must highlight the changes you make in the manuscript by using colored text.
- The authors need to be consistent with spelling throughout the manuscript and grammar should be checked. The English should be corrected by a native speaker.
- The authors must supply an ORCID ID for all authors. Getting an ORCID iD is FREE, quick and easy to do through the ORCID registration page: https://orcid.org/register
- The abbreviations should be defined or given full names at their first existences in the main text.
- The authors must use Journal Guide when they are preparing the revised manuscript.
- The supplied Figure quality is not enough for this journal, so the authors must supply higher quality Figures.
- How can we use the obtained data in this research in a physical or application study?

Reviewer: 2

Comments:
Manuscript ID: GCOO-2020-0025
Title: Syntheses Characterization and Biological Activities of an enamine derivative and its Coordination Compounds

This manuscript describes the synthesis and characterizations of enamine-free base and its metal complexes and characterized by 1H, 13C NMR, IR, UV-vis, mass spectrometry, magnetic susceptibility, and EDX, etc.

The synthesis and characterization of the compounds are lack of novelty. The spectral data of the ligands and their metal complexes are not well explained. In this manuscript, some of the key spectra, methods, and results were not given. The discussion of the biological activities is not well written and is not convincing.

From: Inderscience Publishers <noreply@indersciencemail.com> on Wed, 19 Aug 2020 20:21:33

To: "Dr. Rishi Kumar Pandey" <rishipandey.9@rediffmail.com>, "M.A. Dorgham" <submissions@inderscience.com>

Dear Dr. Rishi Kumar Pandey,

On behalf of the Editor, M.A. Dorgham, we thank you for accepting to review the paper entitled "Non-uniqueness of solution for initial value problem of impulsive fractional partial differential equations."

The review deadline is Sep 26, 2020. However, we will be very obliged if you can send us your review early or as soon as you can.

The full text of the paper is available at:
http://www.inderscience.com/doc.php?word=270348_307702

To send us your review and recommendation for the author, please complete and save the online PAPER EVALUATION form available at:
http://www.inderscience.com/eval.php?form=270348_307702

Please don't forget to select your final recommendation from the "Select Review Decision" drop-down list and click on "Submit Review Decision" to send us your review.

Please do not hesitate to contact us at submissions@inderscience.com if you have any query.

Your prompt attention is much appreciated.

Best Regards,
On-line Submissions Team

To: "jeetu sharma" <jitusharma_19@rediffmail.com>

Dear jeetu sharma,

AEUE - International Journal of Electronics and Communications has moved to Editorial Manager (EM), Elsevier's online submission and peer review tracking system. Your EVISE account information and complete submission history are now available in EM.

Login instructions:

Your username is: jitusharma_19@rediffmail.com

When you log into the system for the first time you will need to create a password here:
https://www.editorialmanager.com/aeue/l.asp?i=130132&l=VO5T8QYP

You can access the new EM site for AEUE - International Journal of Electronics and Communications here:
https://www.editorialmanager.com/aeue/

Please make note of your username and password which you will need for future logins. You can update your details at any time via the "Update My Information" link on the menu.

Your EM credentials are not linked to your Elsevier Profile. The username/password associated with your Elsevier Profile remain unchanged.

Note: Please ensure to read and agree to the privacy policy of your account as soon as you login, so that, we can support you better during trouble shooting.

Kind regards,

AEUE - International Journal of Electronics and Communications

Note: To assist editors in finding suitable reviewers, we have automatically added some Personal Keywords to your profile based on your past publications available on Scopus.com and your activity within this journal. When you log into EM for the first time, you can update these and any other relevant personal information.

The keywords tagged against your profile for your information are: Smart grid; WSN

Introduction

Now a days the volume of data and information are increasing day by day offline and online. Every field and organization are using the information retrieval system and services local and globally at different levels that millions of computer servers are now dedicated to running information retrieval, advertising, and recommendation algorithms. As now a day's enhancement in computer engineering and technologies made human interaction with the machine in their natural languages. As the data format are changing and its not easy manage heterogeneity of data and information because data is available in various format like Structured, semi-structured, unstructured and data is available in big data. Information retrieval from these heterogeneous data format and source is not easy to manage and handle. The science behind efficient IR algorithms is of considerable interest – without it it's unlikely that we would have web search, social networks, and recommender systems in their present form. Search systems today are mostly viewed as tools to satisfy immediate information needs instead of complex information environments in which humans learn while interacting with information content. Research on the design, development and evaluation of search systems that foster learning and enhance the learning experience is scarce.

Objective

Page 1 / 6

The main aim of this special issue is to pr and explore the of new systems development and techniques, in information retrieval (IR) and integration with latest technologies like Big data , Cloud computing , AI,

Subject: [JART] Article Review Request
To: Ranjana Thalore <thalorer1603@gmail.com>

Ranjana Thalore:

I believe that you would serve as an excellent reviewer of the manuscript, "Function-oriented energy model for low power sensor nodes analysis," which has been submitted to the Journal of Applied Research and Technology. The submission's abstract is inserted below, and I hope that you will consider undertaking this important task for us.

Please log in to the journal web site by 2021-03-15 to indicate whether you will undertake the review or not, as well as to access the submission and to record your review and recommendation.

The review itself is due 2021-04-05.

Submission URL: http://www.jart.icat.unam.mx/index.php/jart/reviewer/submission?submissionId=1124&reviewId=1077&key=74rRy962

Thank you for considering this request.

Dr. Marco Aurelio CARDENAS-Juárez
Associate Section Editor

Dear Dr. Thalore:

Thank you for reviewing manuscript # Access-2018-09169 entitled "A Survey of Energy Efficient MAC Protocols for Wireless Sensor Networks" for IEEE Access.

On behalf of the Editors of IEEE Access, we appreciate the voluntary contribution that each reviewer gives to IEEE Access. We thank you for your participation in the online review process and hope that we may call upon you again to review future manuscripts.

Sincerely,

Prof. Wen Chen
Associate Editor, IEEE Access

Dear Rajesh,

Thank you for agreeing to review Manuscript ID JPA-20-524 entitled "Issues and Challenges to Sustainable Urban Development: A systematic Review analysis for the State of Uttarakhand" for Journal of Public Affairs. I ask that you please try your best to complete your review within the next 6 weeks.

In your review, please discuss the originality, accuracy and completeness of the work. I also invite your suggestions for condensing or amplifying the text. On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author". Please be sure to put your comments to the author in the appropriate space.

To access the manuscript, login to the Journal of Public Affairs - Manuscript Central site at https://mc.manuscriptcentral.com/jpa.

To access your Reviewer Center without logging in use the following link:

https://mc.manuscriptcentral.com/jpa?URL_MASK=3cc77fbfb5f5427ebca5da11fa490c1c

Your case-sensitive USER ID is professor.rajeshsharma@gmail.com. For security purposes your password is not listed in this email. If you are unsure of your password you may click the link below to set a new password.

https://mc.manuscriptcentral.com/jpa?URL_MASK=239fa9d5d45843f3938f54c137b17e80

Once you are logged in, the Main Menu will be displayed. Please click on the Reviewing Center, where you will find the manuscript listed under "Awaiting Reviewer Scores". You can click on the manuscript title from this point or you can click on the "View Details" button to begin reviewing the manuscript.

Please note: It is essential that you click the "Save" button if you wish to exit the scoresheet before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit".

During the review process, you will be given the opportunity to receive recognition for your review contribution on Publons.com. You can read more about opting in to the Publons services and how this benefits you at https://publons.com/in/wiley/.

All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

Thank you for evaluating this manuscript.

Sincerely,

Dear Dr. Sharma,

Thank you for reviewing the above referenced manuscript. I greatly appreciate your contribution and time, which not only assisted me in reaching my decision, but also enables the author(s) to disseminate their work at the highest possible quality. Without the dedication of reviewers like you, it would be impossible to manage an efficient peer review process and maintain the high standards necessary for a successful journal.

You will shortly receive a notification from Elsevier's reviewer recognition platform, which provides you with a link to your "My Elsevier Reviews" private profile page, certificates, editor recognition as well as discounts for Elsevier services.

I hope that you will consider Cleaner Engineering and Technology as a potential journal for your own submissions in the future.

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub (reviewerhub.elsevier.com). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

If you have not yet activated your 30 day complimentary access to ScienceDirect and Scopus, you can still do so via the [Rewards] section of your profile in Reviewer Hub (reviewerhub.elsevier.com).
You can always claim your 30-day access period later, however, please be aware that the access link will expire six months after you have accepted to review.

25-Feb-2021

Dear Dr. Sharma:

Thank you for agreeing to review Manuscript ID IJIS-10-2020-0222.R2 entitled "Customer satisfaction as a mediation between service quality and Customer citizenship behavior at Makassar hotel customers" for the International Journal of Innovation Science. Please try your best to complete your review within the next 2 weeks.

In your review, please answer all questions. On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

To access the manuscript, you can link through without having to log in first:

https://mc.manuscriptcentral.com/ijins?URL_MASK=49fbd9edd103424bb135106e9962cd50

If you wish to you can still login to the International Journal of Innovation Science - Manuscript Central site at https://mc.manuscriptcentral.com/ijins to review the paper or to access your Referee Dashboard. Your case-sensitive USER ID is professor.rajeshsharma@gmail.com. For security purposes your password is not listed in this email. If you are unsure of your password you may click the link below to set a new password.

https://mc.manuscriptcentral.com/ijins?URL_MASK=369c133bbffd402db8a04ce86c0b9ed5

Once you are logged in, the Main Menu will be displayed. Please click on the Reviewer Centre, where you will find the manuscript listed under "Awaiting Reviewer Scores." You can click on the manuscript title from this point or you can click on the "View Details" button to begin reviewing the manuscript.

If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons ? the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab. Follow the instructions for reviewers provided in the Manuscript Central site. I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit."

Dear Dr. Sharma,

Thank you for agreeing to review manuscript ESPR-D-20-07349R1, Carbon Footprint Forecasting Using Time Series Data Mining Methods; The Case Of Turkey for Environmental Science and Pollution Research.

If you would like to view and/or download the submission, please click this link: https://www.editorialmanager.com/espr/l.asp?i=2190937&l=YZ6D51KT

If you are ready to submit your comments, you may click this link: https://www.editorialmanager.com/espr/l.asp?i=2190938&l=MZ1A58ZR

Please be aware that this link will expire after 1 click.

You can also submit your review by logging in with your username and password at: https://www.editorialmanager.com/espr/

If you have forgotten your username or password please use the "Send Login Details" link to get your login information. For security reasons, your password will be reset.

We look forward receiving your review by 15 Mar 2021.

There you will find spaces for confidential comments to the editor, comments for the author and a report form to be completed.

15-Dec-2020

Dear Dr. Sharma,

Thank you for accepting the invitation to review VIS-2020-0624, Attention to the fads and fashions in the indian stock markets during COVID-19 for Vision: The Journal of Business Perspective.

Please try your best to complete the review by 14-Jan-2021 . Should you need additional time, please do not hesitate to get in touch with us.

To complete the review and view the manuscript, please click on the below link.

https://peerreview.sagepub.com/Home/ReviewInvitation?mskey=60741&reviewer=9434

In your review, please provide constructive and detailed comments for the author. In addition, if you have comments for my attention only, you may enter them in a separate window in the reviewer score sheet, and these will remain confidential. Your specific comments will offer valuable feedback to improve future work.

All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

After logging in, please click the Reviewer Desk to access the manuscript proofs and reviewer scoresheet. You may view the manuscript in HTML or PDF format. Please 'save' the scoresheet if you wish to exit the review before submitting. When you are ready to submit the review, click the "Submit" button.

Thank you for evaluating this manuscript.

We look forward to receiving your completed review.

Sincerely,
Sajal Ghosh

Date: Monday, 8 February, 2021, 09:44 pm IST

08-Feb-2021

Dear Dr. Verma,

Thank you for agreeing to review Manuscript ID JOEPP-12-2020-0258 entitled "Fostering Change-Oriented OCBs: An analysis of India's IT Talent" for the Journal of Organizational Effectiveness: People and Performance. Please try your best to complete your review not later than 10-Mar-2021.

In your review, please answer all questions. On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

To access the manuscript, you can link through without having to log in first:
https://mc.manuscriptcentral.com/joepp?URL_MASK=079c0b5eb472427a8e87247ef5bf5207

If you wish to you can still login to the Journal of Organizational Effectiveness: People and Performance - Manuscript Central site at https://mc.manuscriptcentral.com/joepp to review the paper or to access your Reviewer Dashboard. Your case-sensitive USER ID is sunitaj2006@yahoo.co.in. For security purposes your password is not listed in this email. If you are unsure of your password you may click the link below to set a new password.

https://mc.manuscriptcentral.com/joepp?URL_MASK=fbba9c81ec8e4f468018491b1441b4902

Once you are logged in, the Main Menu will be displayed. Please click on the Reviewer Centre, where you will find the manuscript listed under "Awaiting Reviewer Scores." You can click on the manuscript title from this point or you can click on the "View Details" button to begin reviewing the manuscript.

If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons – the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab. Follow the instructions for reviewers provided in the Manuscript Central site. I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit."

All communications regarding this manuscript are privileged. Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

Thank you for evaluating this manuscript.

Manuscript NTEE-D-21-00020 for review

Nanotechnology for Environmental Engineering (NTEE) <em@editorialmanager.com>
Fri 2/5/2021 8:40 PM
To: KL Ameta <klameta77@hotmail.com>

Dear Dr Ameta,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Nanotechnology for Environmental Engineering.

Manuscript Number: NTEE-D-21-00020

Title: Effect of silver nanoparticles on nitrogen-cycling bacteria in constructed wetlands and wastewater-treating bioreactors

Abstract: Silver nanoparticles (AgNPs) are one of the most popular Engineered Nanomaterials because of their anti-microbial properties. In wastewater treatment ecosystems, AgNPs can be adsorbed by biofilms or be subjected to plant uptake and thus be removed from wastewater. However, AgNPs can inhibit the activities of plants and microorganisms. This review outlines the effects of AgNPs on nitrogen-cycling bacteria in wastewater treatment ecosystems. Environmental conditions like organic matter, pH, ionic strength of soil along with the size, concentration, surface-coating, speciation, and aggregation of AgNPs influence the toxicity. Bacterial activity is hampered by disruption of the cell membrane and extracellular polymers, ROS imbalance, DNA damage, inhibition of gene expression, protein functions, and energy production. Compared to heterotrophic bacteria, generally nitrifying bacteria are more sensitive to AgNPs. Bacterial inhibition leads to a significant decrease in community diversity and reduction in Nitrogen Removal Efficiency (NRE). Recovery of NRE is correlated with the resistance and functional redundancy of the community. Exposure to sublethal AgNP concentrations can upregulate nitrogen-cycling genes. The hormetic response and bacterial resilience are more evident in communities with high diversity. Plants enrich the diversity of nitrogen-cycling bacteria in planted CWs in presence of AgNPs. Compared to unplanted CWs, the planted wetlands are resistant to AgNPs and consequently exhibit a better NRE after long-term exposure to AgNPs. Future endeavors to analyze the influence of AgNPs should be preceded by a long-term assessment of the complex interactions in actual treatment systems that are often overlooked in studies using synthetic wastewater.

Manuscript NTEE-D-20-00068 for review

Nanotechnology for Environmental Engineering (NTEE) <em@editorialmanager.com>
Sat 11/7/2020 3:25 PM
To: KL Ameta <klameta77@hotmail.com>

Dear Dr Ameta,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Nanotechnology for Environmental Engineering.

Manuscript Number: NTEE-D-20-00068

Title: Phytosynthesized nanoparticle directed catalytic reduction of synthetic dyes: Beast to Beauty

Abstract: Nature the best gift mankind could ever get. But as it is well said, "You never know how valuable something is until you almost lose it." Similarly humans were busy spoiling the nature until they realised it is just reverting back on them negatively. Colors, a beauty of nature turned to a monster by humans. People have continuously used synthetic colors to brighten themselves and pollute the nature. Unceasing use and simultaneous discharge of untreated waste into the water bodies have polluted them to a great extent. And this called on for the requirement of a solution to fight this pollution. Since the past few decades researchers have been finding ways to reduce and remove these toxic pollutants from the natural resources. One of the process that gave hope and scope for improvement is the use of nanocatalysts to reduce these dyes. These nanocatalysts are of different varieties and are being synthesized by various methods. The recent scheme of synthesis gaining importance is the green synthesis, to even more cut down the use of toxic substances in the way of achieving the desired goal. In order to highlight the efforts being made to protect the environment, the present review emphasizes on the versatile type of phytosynthesized nanocatalysts that have proved themselves to be effective in degrading the harmful dyes and also show additional properties along with their catalytic property. Additionally, the harmfulness of various dyes that made it necessary for researchers to find ways to reduce them is also discussed.

Manuscript NTEE-D-19-00039 for review

Nanotechnology for Environmental Engineering (NTEE) <em@editorialmanager.com>
Tue 12/10/2019 7:56 PM
To: KL Ameta <klameta77@hotmail.com>

Dear Dr Ameta,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Nanotechnology for Environmental Engineering.

Manuscript Number: NTEE-D-19-00039

Title: TiO2/Activated carbon nanocomposite for photocatalytic application: A computer modeling and experimental study

Abstract: Advanced oxidation process using photocatalyst is an alternative wastewater treatment method for the removal of toxic Alizarin Red S (1, 2-dihydroxy-9, 10 anthraquinone-3-sulfonate, ARS). This work describes the hydrothermal synthesis of activated carbon/TiO 2 (TiO 2 -NP/PAC) nanocomposite to evaluate the simultaneous adsorption and degradation of an anionic dye. Characterization of the TiO 2 -NP/PAC composite was done by different analytical methods like SEM-EDX, XRD, FT-IR, photoluminescence (PL), pH ZPC and UV-Visible diffuse reflectance spectroscopy (DRS). The degradation of ARS aqueous solution at varying TiO 2 -NP/PAC dosage, contact time, ARS concentrations, and pH shows the maximum degradation occurs at an optimum concentration of 20 mg L -1 , pH of 2, and contact time of 80 minutes and composite dosage of 0.05 g. It was observed that Photocatalytic degradation of the dye followed pseudo-first-order rate kinetics and the adsorption isotherm was found to be best fitted with Freundlich isotherm model. The molecular model of TiO 2 -NP/PAC composite has been optimized at B3LYP/6-31G level of theory and various molecular descriptors have been determined. The optimized composite geometry showed larger dipole moment, higher ionization energy, chemically softer and narrower HOMO-LUMO energy compared to pure activated carbon.

Manuscript NTEE-D-18-00055 for review

Nanotechnology for Environmental Engineering (NTEE) <em@editorialmanager.com>
Sun 11/4/2018 9:25 PM
To: KL Ameta <klameta77@hotmail.com>

Dear Dr Ameta,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Nanotechnology for Environmental Engineering.

Manuscript Number: NTEE-D-18-00055

Title: Heavy Metals and their Toxicity: Impact on Environment and Treatment Methods using Photocatalytic Nanomaterials

Abstract: The water polluted problems are spreading thorough out the world. These world-wide problems are increasing day by day. Among many contamination material of waste water, one of them is heavy metals leach out through the wastewater by the industries like oil tanneries, textile refineries, dyes, paper pulp industries and petrochemical industries etc. The waste industrial water contains by these industries is polluted due to leakage of synthetic organic compounds, hydrocarbon salts and heavy metals. To remove these pollutants conventional, Nano-based materials characterization, adsorbents, and Bismuth-based particles are used. These methods of redox the heavy metals under some procedure discussed below and precipitate the impurities from water. the heavy metals lead very hazards effect on the aquatic, human, agriculture and the wild life of animals. Because of toxic materials the cause of health problems, the disorder of irrigation to crops, the marine life in sea
water is also destroying rapidly and the pollution is also enhancing up to 5% as per day. The use of Bismuth Vanadate, Bi-oxyhalide and chalcogenide the pollution of water will result in decrease of contamination as about 85% to purified water.

Manuscript NTEE-D-18-00045 for review

Nanotechnology for Environmental Engineering (NTEE) <em@editorialmanager.com>
Sat 9/15/2018 7:34 PM
To: KL Ameta <klameta77@hotmail.com>

Dear Dr Ameta,

In view of your expertise I would be very grateful if you could review the following manuscript which has been submitted to Nanotechnology for Environmental Engineering.

Manuscript Number: NTEE-D-18-00045

Title: Microbial cementation: An innovative way to prevent oil penetrating into the ground

Abstract: Objectives

Crude oil as one of the major environmental pollutants has been studied by many researchers with respect to the decomposition of the compounds in the natural environments. However, few researches have utilized biological methods to control contamination. Quite recently, as a biological method, creating an impervious layer against leakage of contaminants has been used.

Results

In this study, by four injections of food and reactants into the soil and measuring the amount of crude oil, the ability of bio-clogging of soil was investigated. The results showed that bio-stimulation, in addition to increasing the soil resistance, could increase soil impermeability to oil compounds. The permeability of the treated samples was shown to be about 11-16% that of the control sample.

Conclusions

Therefore, it can be concluded that using this method, an impermeable layer can be created around the desired location, exhibiting good resistance to crude oil penetration.

ABSTRACT:
N-aroylbenzotriazoles have been shown to be efficient reagents for esterification in the absence of organic solvent. Grinding N-aroylbenzoytiazoles with twofold excess of alcohols for a couple of hours at room temperature gave corresponding esters in high yields.

Dear Dr. Manoj Mishra,

This is to acknowledge that we have received your review form for the paper:
Key: 20032402
Title: CUBIC-QUARTIC OPTICAL SOLITONS WITH DIFFERENTIAL GROUP DELAY FOR KUDRYASHOV'S MODEL BY EXTENDED TRIAL FUNCTION

---

6 | 4 | 5 | 5 | 2 | 5
Comments:
In this manuscript the authors showed rigorous mathematical formulation to explore bright and singular optical solitons in birefringent fibers having Kudryashov's law of nonlinear refractive index. Extended trial function algorithm has been used. The authors elaborate mathematical steps for three different power law nonlinearity parameters. However, the manuscript has some serious flaws enlisted below:

1. The supporting Physics of the mathematical formulation is almost completely missing.
2. Pure quartic soliton is understandable, but for what kind of fiber quartic nonlinearity coexists with cubic one? Mentioning a real time example of such fiber as well as reason of coexistence of cubic and quartic nonlinearities is essential. Otherwise the complete mathematical work stands invalid in the current situation.
3. No graphical presentation of the soliton solutions is found in the manuscript. Such profile plots are indispensible.
   The analytical results essentially need to be validated / compared with that of direct numerical simulations. This part is completely missing.

Apart from the aforementioned essential points some more issues are there:

1. The manuscript is silent about the stability of the soliton solution
2. In what practical situation such power-laws in optical fiber will be prominent?
3. Inadequate number of references.
4. Is there any citation of the governing equation (1) other than self-citation?

Etc...

Finally, in view of these issues I cannot recommend the acceptance of this manuscript for publication.

---

1. English grammar and readability: 6
2. Reference of previous contributions in books and journals: 4
3. Chances of free from potentially serious errors which may invalidate the results: 5
4. New technical contributions: 5
5. Quality as a review article: 2
6. Summary rating of the overall quality of the article: 5

Thank you very much for reviewing this article.

Dear Dr. Narendra Kumar,

This is to acknowledge that we have received your review form for the paper:
Key: 20060501
Title: TUNABLE PHOTONIC CRYSTAL FILTER FOR COARSE WAVELENGTH DIVISION MULTIPLEXING

---

6 | 6 | 6 | 7 | 5 | 6
Comments:
The authors have designed a tunable 2D photonic crystal and analyzed it using simulations with FDTD process, based on ring resonator achieved a new type of ADF. For the WDM network, they have shown that this device can be used as a selective and tunable filter with a good efficiency extraction.
However, the suggestions are: The break in paragraph in abstract must be omitted. More references be added and should be emphasized on the application part in Discussion.
With these corrections, as authors have found a few important new results and may be published.

Subject: Invitation to Review for the Journal of Physical Science

27-Jul-2020

Dear Dr. Narendra Kumar,

The Journal of Physical Science (JPS) is a refereed journal published by the Universiti Sains Malaysia Press (USM Press), and is indexed in Scopus, Emerging Sources Citation Index (Web of Science) and Chemical Abstracts Services.

A manuscript ID JPS-OA-20-0094 entitled "Electro-optical effect of the nCOOCB liquid crystal molecules under the terahertz (THz) frequency range: A theoretical approach" has been submitted to the Journal of Physical Science.

We wish to invite you to review the above manuscript. The abstract appears at the end of this e-mail. Please

let me know as soon as possible if you will be able to accept my invitation to review. If you are unable to review at this time, we would appreciate you recommending another expert reviewer by replying to this e-mail. You may click the appropriate link at the bottom of the page to automatically register your reply with our online manuscript submission and review system.

Once you accept our invitation to review this manuscript, you will be notified via e-mail about how to access ScholarOne Manuscripts, our online manuscript submission and review system. You will then have access to the manuscript and reviewer instructions in your Reviewer Center.

We acknowledge that our reviewers' expertise greatly contribute to the high standards of the Journal, and I thank you for your contribution.

Sincerely,
Prof. Abdul Latif Ahmad
Journal of Physical Science Editor-in-Chief

MANUSCRIPT DETAILS

TITLE: Electro-optical effect of the nCOOCB liquid crystal molecules under the terahertz (THz) frequency range: A theoretical approach

AUTHORS: Kumar, Narinder; Singh, Pawan; Thapa, Khem; Kumar, Devesh

ABSTRACT: The homologous series of 4-cyano-4'-phenyl-phenol-alkanoates (nCOOCB) studied under the influence of terahertz (THz) frequency range. The nCOOCB series has a re-entrant nematic phase, which is suitable for electro-optical properties under the terahertz frequency. The birefringence and order parameter expresses the twisting of the nematic phase at the higher frequency range. The director angle has fluctuated at a higher frequency range. The refractive index has remained constant at a higher frequency. The ionization potential, electron affinity, and Homo-Lumo energy gap continuously decrease with an extension of alkyl chain length; however, the dipole moment increases. The Homo-Lumo energy bandgap is reciprocal to the dipole moment.

Dear Dr. Narendra Kumar,

Greetings from the editorial office of ***American Journal of Optics and Photonics***.

We are glad to inform you that your application for the editorial board member of ***American Journal of Optics and Photonics*** has been accepted.

As an editorial board member, you will be entitled some benefits and also should fulfill the following responsibilities:

Benefits:

1. Enhance your academic influence and enrich your academic experience.
2. Get to know the latest research in your field.
3. Enjoy a preferential discount for your manuscripts during the tenure.

Responsibilities:

1. Review manuscripts carefully and give suggestions without any bias.
2. Attract new authors and submissions.
3. Promote the journal to your colleagues and peers.

We believe your contribution will play an immense role in ensuring the high standards of quality of the journal.

If you have any questions, please feel free to contact us.

Sincerely yours,
Zoe Mikey
Editorial assistant

N. Joshi, PhD

Advisory Board, Ecological Indicators

Mody University of Science and Technology, Department of Biosciences, Laxmangarh, India

Dr. Navneet Joshi research area is associated with Environmental Biotechnology and has more than forty scientific articulations in the form of research articles, books, seminars and conferences. Dr. Joshi has obtained Ph.D. degree from University of Rajasthan, Jaipur. He is an associate fellow of ISC, NEA, BRSI, AMI and did academic collaborations at TERI, CLRI, CCMB, IIT-KGP and JNU. He has attended and delivered invited lectures in various workshops, conferences and refresher/ Orientation courses of national and international repute and also fetched grants for research projects. He ranked first position with distinction in the university exam of Masters Program. Currently he is working as Professor-Biotechnology in the Department of Biosciences at Mody University of Science and Technology, Lakshmangarh, Rajasthan INDIA.
