

CAFETERIA

The cafeteria at Mody University meet more than the usual expectation. At the cafeteria, students get to select and enjoy retreats from a varied number of snacks and meals starting from ice-cream and beverages to Indian, Continental and Chinese cuisines. To make the moment interesting and appetizing, the cafeteria plays songs broadcasted from World Space Radio while the students and faculty members have their meal. Built with white stones and huge pillars, the dining space of Mody University is treated as the most-wanted corner of the campus. With a seating capacity of 2400, the area is a place where both teachers and students share their meal together in a well ventilated and spacious atmosphere. Carefully selected and strict hygiene, good healthy and appetizing vegetarian food is served to the students.

A 200 seater Cafeteria has also been designed on similar principles and completes the development along the approach road
