FACULTY DEVELOPMENT PROGRAMME (FDP)
on
Advances in Antenna Technology for Mobile Communication
(18 - 23 November 2019)
Organized by

Department of Electronics and Communication Engineering (SET)
Mody University of Science and Technology
Lakshmangarh, Sikar, Rajasthan. 332311

Preamble: Mody University of Science and Technology is a state private University with the objective of encouraging and motivating the women population and to avail quality education with world-class infrastructure and facilities in an IT- savvy environment. The department of Electronics and Communication Engineering s works with a idea to develop as a leading centre for Undergraduate and Post Graduate, study and research in various fields of Electronics and Communication.

About the FDP: The proposed faculty development programme (FDP) is devoted to the fundamental theory, recent developments and research outcomes addressing the related theoretical and practical aspects in the field of advances antenna technology for mobile communication. FDP provides an exposure to new areas of research and development being carried out in universities abroad and rest of the world.

Major Course Contents:
- Antenna Fundamentals
- Antenna Parameters and Measurements
- Smart Antennas
- Broadband Antennas Design
- Adaptive antenna design
- Antenna Array Design
- Signal processing techniques for adaptive antenna
- HFSS overview

Important dates:
Last date for submission of Application: 15 November 2019
Duration : 18 – 23 November, 2019

Registration Fees: No fees

11/11/19

Advances in Antenna Technology for Mobile Communication (18 - 23 November 2019)

Organized by-

Department of Electronics and Communication Engineering
School of Engineering and Technology
Mody University of Science and Technology

Introduction- Smart Antenna

- A smart antenna consists of several antenna elements, whose signal are processed adaptively in order to exploit the spatial domain of the mobile radio channel.

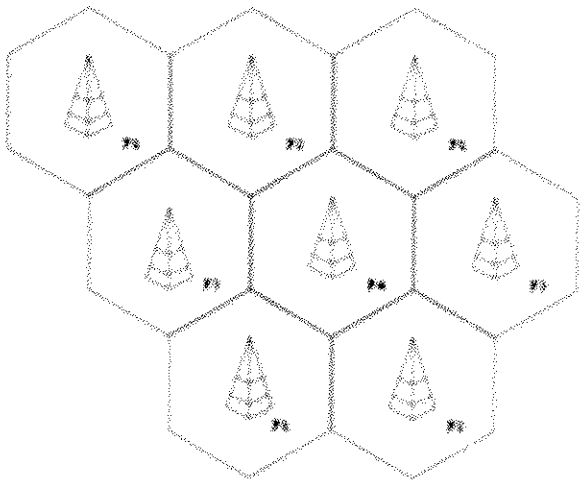

- A smart antenna is a specific type of digital antenna that has capabilities related to tracking or handling signals.

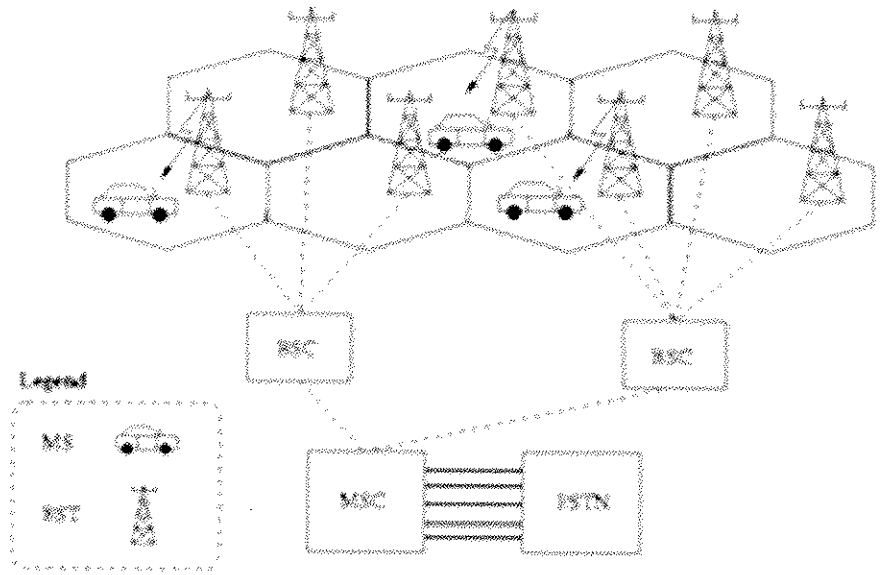

- These types of antenna setups are often used in signal processing, radar and telecommunications, and are evaluated by groups like the IEEE.

- Smart antennas are also known as adaptive array antennas.

Smart Antenna for Base Station

- ✓ In radio communications, a base station is a wireless communication station installed at a fixed location.
- ✓ The base station, a wireless system, uses microwave radio communication. It is composed of several antennas mounted on a tower and a building with electronics in it at the base

Other Essentials of Planning
Decisions about:
How previous content will be built on; high selectivity
KEY topics or points (Land's threshold concepts)
How much time to allocate to each
Strategies for learning (PAR and BEM)
Key questions that will be asked
How explanations will be structured
How stimulus variation will be employed
How student attention will be optimised
What will make the learning inclusive
Types of learners (multi sensory teaching)

ONLINE FACULTY DEVELOPMENT PROGRAMME (FDP)
ON
Recent trends in Biomedical Materials
(25th – 29th May, 2020)
Organized by

Department of Biomedical Engineering, School of Engineering and Technology (SET)
Mody University of Science and Technology
Lakshmangarh, Sikar, Rajasthan. 332311

Preamble: Mody University of Science and Technology is a state private University with the objective of encouraging and motivating the women population and to avail quality education with world-class infrastructure and facilities in an IT- savvy environment. The department of biomedical engineering works with a vision to emerge as a leading centre for Undergraduate and Post Graduate, study and research in an interdisciplinary area which includes the application of engineering aspects in the health care system. It is aimed to generate skilled professionals for teaching and industrial sectors of Biomedical Engineering, Biomaterial, Tissue Engineering and other related disciplines.

About the FDP: This faculty development program (FDP) is devoted to address the need of materials for enhancing the related health care system. Biomedical Engineering is a field that applies these specialized engineering technologies and design paradigms to the biomedical environment. It is an interesting field in that these established technologies and fields of research, many of which were inspired by nature, are now being developed to interact with naturally occurring phenomena in medicine. This completes a two-way information loop that will rapidly accelerate our understanding of biology and medical phenomena, solve medical problems and inspire the creation of new non-medical technologies. This FDP is intended to provide an insight on tools on the recent work involving materials science in biomedical engineering, including developments in metallic biomaterials, nanomaterials, polymers and other material technologies in biomedical engineering.

Major Course Contents:

- Materials in Biomedical Engineering
- Metallic Biomaterials
- Nanomaterials
- Polymers
- Biomedical Engineering Trends: High Level View

Date / Session	Session -1 9:30 AM- 11:30 AM	Session -2 11:30 AM – 1:30 PM	Lunch Break 1:30 PM-3:00 PM	Session -1 3 PM to 5 PM
May 25, 2020	Inauguration / Welcome Speech	Dr. R. S. Chundawat , (*Toxicological Evaluation of Biomedical Materials*)	**Lunch Break**	Dr. Harlal Singh *(Synthesis of Medicinally Important Organometallics Compound)*
May 26, 2020	Dr. Sandeep Jaiswal (*Hard Tissue Implant Design and Production : An Overview)*	Dr. Vivek Pandey (*Characterization techniques of materials)*		Dr. Rajeev Pourush *(Characterization of Biomedical Materials for Microwave Application)*
May 27, 2020	Dr. Subrata Jana (*Designing of superconducting magnetic materials for biomedical application)*	Dr. Atul Kumar (*Mechanical Testing of Biomaterials*)		Dr. K.P. Sharma *(Biological Evaluation of Materials)*
May 28, 2020	Dr. Sandeep Jaiswal *(Gait Measurement & Analysis of Human Locomotion)*	Dr. Vivek Pandey *(Surface Treatments of Nearly Equiatomic NiTi Alloy (Nitinol) for Surgical Implants)*		Dr. R. S. Chundawat , (*Toxicity Mechanism of Metal Alloys)*
May 29, 2020	Dr. K.P. Sharma *(Prevention of Biofilm Associated Infections and Degradation of Polymeric Materials used in Biomedical Applications)*	Dr. Subrata Jana (*Application of different types of radioisotopes in biomedical field)*		Valedictory

MODY UNIVERSITY
LAKSHMANGARH • RAJASTHAN

ONLINE FACULTY DEVELOPMENT PROGRAMME (FDP)
ON
Recent trends in Biomedical Materials
(25th – 29th May, 2020)
Organized by

Department of Biomedical Engineering, School of Engineering and Technology (SET)
Mody University of Science and Technology
Lakshmangarh, Sikar, Rajasthan. 332311

Preamble: Mody University of Science and Technology is a state private University with the objective of encouraging and motivating the women population and to avail quality education with world-class infrastructure and facilities in an IT- savvy environment. The department of biomedical engineering works with a vision to emerge as a leading centre for Undergraduate and Post Graduate, study and research in an interdisciplinary area which includes the application of engineering aspects in the health care system. It is aimed to generate skilled professionals for teaching and industrial sectors of Biomedical Engineering, Biomaterial, Tissue Engineering and other related disciplines.

About the FDP: This faculty development program (FDP) is devoted to address the need of materials for enhancing the related health care system. Biomedical Engineering is a field that applies these specialized engineering technologies and design paradigms to the biomedical environment. It is an interesting field in that these established technologies and fields of research, many of which were inspired by nature, are now being developed to interact with naturally occurring phenomena in medicine. This completes a two-way information loop that will rapidly accelerate our understanding of biology and medical phenomena, solve medical problems and inspire the creation of new non-medical technologies. This FDP is intended to provide an insight on tools on the recent work involving materials science in biomedical engineering, including developments in metallic biomaterials, nanomaterials, polymers and other material technologies in biomedical engineering.

Major Course Contents:

- Materials in Biomedical Engineering
- Metallic Biomaterials
- Nanomaterials
- Polymers
- Biomedical Engineering Trends: High Level View

Important dates:
Last date for submission of Application: 20/05/2020
Duration : 25– 29 May, 2020

Lakshmangarh – 332 311
Sikar, Rajasthan

Sub: Refresher Course on "Experimental Physics" at Mody Univ. of Science and Technology, Lakshmangarh during 23 December 2018 to 07 January 2019.

Dear Dr Singh,

(a) This has reference to your letter forwarding a proposal and budget for organizing a Refresher Course in Mody Univ. of Science and Technology, Lakshmangarh. The Joint Science Education Panel of the three Academies will be happy to sponsor and support the Refresher Course. We note that Prof. R. Srinivasan (Mysore) will be the Course Director and you will be the Course Co-ordinator.

(b) Your budget of Rs8,75,600/- for 40 participants (Resource Persons travel expenses (i) II tier A/C train fare for persons below the age of 60 (ii) air travel by Air India only for Resource Persons over the age of 60) has been approved by the Science Education Panel.

(c) Please note that only the names of Convener and Coordinator (only one coordinator) of the Course should be included in brochure/invitation etc. Names of members of the management, organizing committees, patrons etc should be strictly avoided.

(d) As the Refresher Course is an all India one, it has to be advertised in our journals **RESONANCE** and **CURRENT SCIENCE** (copy of a typical announcement is attached). Please send us a draft of your announcement.

(e) Applications should be submitted online through a link which will be available in our website. The Course Director and Coordinator will be provided a user id/password to enable them to view the applications and make the selections.

(f) Refresher Courses are sponsored and supported by the three National Science Academies – IASc, INSA and NASI. The names of INDIAN ACADEMY OF SCIENCES (BANGALORE), INDIAN NATIONAL SCIENCE ACADEMY (NEW DELHI) and THE NATIONAL ACADEMY OF SCIENCES, INDIA (ALLAHABAD) should therefore be mentioned in all publicity material such as programme sheet, invitation cards, etc.

1/12/18

(g) The Course should be called "Science Academies' Refresher Course in "Experimental Physics".

(h) Please send 4-5 copies of the printed programme when ready.

(i) Funds for organizing the Course can be sent as an advance by electronic transfer. This can be sent after a bank account is opened and the following details are provided to us:

1. Name of the Bank:
2. Name of the Branch:
3. Account No.:
4. Name of the Account Holder
   (in the name of Refresher Course):
5. IFSC code (for Non-SBI accounts)

If necessary, an authorization letter from the Academy to the bank to open the Savings Bank account can be sent to you after we hear from you.

Please go ahead with organizing the Course in consultation with Prof. R. Srinivasan and keep in touch with the Academy about the progress.

Best wishes,

Yours sincerely,

C S Ravi Kumar

ABOUT THE UNIVERSITY

The Mody University is a Private university aimed at helping the girl population avail quality education with world-class techniques in an IT-savvy environment. It gives the students an opportunity to study the subject they want. They can choose from numerous undergraduate and postgraduate courses of different disciplines like Arts, Science, Commerce, Engineering, Management, Law, Fashion, Interior Design, Architecture, Physiotherapy, Agriculture etc.

ABOUT FDP

Since the beginning of the twenty-first century, there have been many changes in the pedagogical tools in management education. Pedagogy is an art of teaching and effective pedagogies involve a wide range of techniques which focuses on higher order of thinking and satisfies diverse needs of range of learners. There is no single universal approach suitable for all situations, and effective teachers use various strategies to support intellectual engagement. The core competency of management education lies in its unique and innovative teaching pedagogy to enable the learning and development of those skill sets of students desirable by the employers.

The programme extensively covers the recent advancement in teaching methodology, research, pedagogies, effective presentation techniques, and behavioral skills for the comprehensive development of teaching fraternity. In this context, School of Business proposes to organize five days faculty development programme on "Teaching Methodology" for faculty members and research scholars.

PROGRAMME OBJECTIVES

- Enhance class room interaction and class handling;
- Develop teaching skills;
- Focus on communication skills, behaviourial sciences and attitude building;
- Make them aware about modern teaching pedagogical tools and technological developments;

Changing Dimension of Legal Education in 21st Century

(06th - 10th August, 2018)

Organized by

School of Legal Studies

Mody University of Science and Technology

Lakshmangarh, Sikar, Rajasthan. 332311

Preamble: Mody University of Science and Technology is a state private University with the objective of encouraging and motivating the women population and to provide quality education with world-class infrastructure and facilities in an IT- savvy environment. School of Legal Studies has been setup with the aim to inspire women population to opt for legal courses. The curriculum has been designed to inculcate among the students with techno legal skills, innovation, project management, communication capability and creative thinking. School of Law offers courses like BA/ B.Com./ BBA/ B.Sc. LLB Honours, LL.M and PhD.

About the FDP: School of Legal Studies, Mody University of Science and Technology, Laxmangarh, Sikar Rajasthan, announces a Faculty Development Programme (FDP) to be conducted from 06th - 10th August, 2018. The theme of the Programme is "Changing Dimension of Legal Education in 21st Century". The programme is meant to serve as a platform for teachers and professionals to come together and discuss the latest developments in the area of teaching and learning. The objective of the programme is to explore contemporary teaching approaches and methods that can make the classroom or virtual teaching effective. The FDP will cover an array of areas around which the individual sessions will be organized. The following themes will be covered in the programme:

- Mentoring Pedagogy and Teaching
- Focusing on case law-based teaching & learning methods
- Designing of lecture plans for distance learning.
- Application of ICT tool in Classroom
- Enhancement of Effective Communication Skills in classroom teaching
- Research Methods and Techniques for Academic Writing.

ON

Changing Dimension of Legal Education In 21st Century

(06th - 10th August, 2018)

DISCUSSION

The socio-economic dimension of law has been changed to a major extent due to the effect of globalization and liberalization. There is a requirement to re-look the entire legal education system in India in order to produce competent law graduates. Due to the development of technology, the world becomes a global village. The impact of technology on legal education is to be measured by comparing the global legal context. The present faculty development program on Changing Dimension of Legal Education in 21st Century is being organized by the School of Legal Studies, Mody University of Science and Technology, to understand and evaluate the development of the current legal system in the global context.

The speakers have shared their expert knowledge on the various changing dimension of the legal education system. Dr. Pawan Sharma succinctly described the history of legal education in India and the need for the reforms in 21st century. Another speaker Prof. Shri. S. S. Jaiswal explained the changing face of legal education in India and its impact on lawyers. Dr. Anuradha Chadhha, Professor of School of Law Ambala discussed in detail the role of collaborations in the advancement of legal education. The collaborations that took place between the legal institutions and national or international governmental or non-governmental bodies play a major role in the advancement of legal education in India in the 21st century.

OUTCOMES

The present faculty development program has the following outcomes:

1. The participants learned the different changing contours of legal education in India in the 21st century.
2. The participants were versed with the role of collaborators in the advancement of the legal education system in India.
3. The participants learned the major impediments to the reform of legal education in India and the need to implement the major changes in the curriculum and assessment which brings positive changes in legal education.

THE GENDER DIMENSION OF ENVIRONMENTAL EDUCATION

About Mody University

The Mody University is a Private University aimed at helping the girl population avail quality education with world-class techniques in an IT-savvy environment. It gives the students an opportunity to study the subject they want. They can choose from numerous undergraduate and postgraduate courses of different disciplines like Arts, Science, Commerce, Engineering, Management, Law, Fashion, Interior Design, Architecture, Physiotherapy, Agriculture etc.

About School of Management Studies

School of Management Studies (SMS) has three major pillars of Management, Economics and Commerce - which combine together to make SMS a center of excellence for study of Business in totality. Even before it started being recognized that gender diversity and investing in female leaders make business sense, SMS has been delivering its under-graduate and post-graduate programs in management, economics and commerce though a unique mix of cross-functional approach to business, focus on issues impacting career-success of women in the professional world and seamless alignment with Indian beliefs and value- systems.

12th January, 2018

3rd FDP on IT Tools for Teaching Pedagogy
(8-12 January, 2018)
Discussion on FDP

In the morning session, Prof. D. K. Agarwal talked about Digital Pedagogy: Online Teaching Modes, Tools and Techniques. Dr. B. S. Rathore expressed his views on Role of ICT in the Enhancement of Management Skills Among Learners. Dr. Atanu Mandal deliberated on New IT based Approaches in Teaching Management, Economics and Commerce. Dr. Ashish Kumar Sharma presented his views on Use of IT in Classroom Teaching. There was also an intense discussion among the panel members about the use of ICT Tools to Escalate Students' Motivation.

In the afternoon session, Prof. D. K. Agarwal talked about Use of Wikipedia/Social Media in Education. Dr. B. S. Rathore expressed his views on Use of Various Apps for Online Teaching. Dr. Atanu Mandal deliberated on Content Analysis in Teaching. Dr. Ashish Kumar Sharma presented his views on Various Tools for Online Exam, Quiz and Survey.

3rd FDP on IT Tools for Teaching Pedagogy
(8-12 January, 2018)

Outcome of the FDP

The FDP was successful in creating awareness among teachers and management practitioners about IT Tools for Teaching Pedagogy. Various discussions were held on the current scenario and challenges in IT Tools for Teaching Pedagogy. Also knowledge about the innovative trends and best practices in IT Tools for Teaching Pedagogy was shared amongst the participants. So, it can be said that the FDP was fruitful for everybody and the real objective was achieved.

Subject: Application for the approval of conducting FDP.

Dear Sir,

Department of Physics has planned a 5 days Faculty Development Program (FDP) entitled "Recent Progress in Science & Emerging Technologies (RPSET-18)" which is a 5 days activity proposed to be conducted from September, 04 to September 08, 2018. It will be a national level activity to orient the faculty about the recent development in research in the science, engineering and technology. This will also enhance the opportunity to learn about industrial applications of new trend in research.

We sincerely thank you for your usual cooperation.

Yours sincerely

Dr. Manoj Mishra
Organizing Secretary (RPSET-18)

Dr. Brajraj Singh
Convenor (RPSET-18)

Forwarded
17/7/2018

1/2/18

Proposal

for

Faculty Development Program (FDP)

1. Title of FDP: "Recent Progress in Science & Emerging Technologies (RPSET-18)"
2. Tenure: 5 days activity from September, 04 to September 08, 2018
3. Organizing Department: Department of Physics
4. Convenor: Dr. Brajraj Singh

   Department of Physics

   SOS

   Mody University of Science and Technology

   Lakshmangarh
5. Organizing Secretary: Dr. Manoj Mishra

   Department of Physics

   SOS

   Mody University of Science and Technology

   Lakshmangarh

6. Brief Description of activity:

There will be three lectures in a day each of one and half an hour duration. Total 13 lectures will be conducted in the program along with inaugural and valedictory sessions. We are planning to arrange 5/6 resource persons from the research organizations and universities of international repute. The experts will be from all the major divisions of sciences and engineering. The prime objective will be to strengthen research in basic science, explore the applications of fundamental research and technology transfer to industry. The lodging and boarding of resource persons may be arranged in the university mess, vacant faculty cottages of our organization respectively.

7. Participants:

As the activity of research nature, therefore participants may be teaching faculty of university/ degree colleges/Research Scholars/Research Associates/Scientific Officers etc. A few M.Sc. final students may all also be accommodated in the participants, depends on response from teaching fraternity. Program is planned to accommodate 50 participants in the FDP. Approximately 50 percent participants will be from the nearby organizations.

8. Registration in FDP:

Participants can register by filling a form along with an ID of present organization. A google form will be generated to collect and process the information of participants. No participation fee will be charged from the participants. The female participants may be accommodated in the available vacant rooms of the hostel. Attendance in all the sessions will be mandatory for the participants. After successful completion of FDP, feedback will be collected from all the participants. An E-certificate will be provided to all the participants after successful completion of FDP.

9. Announcement:

An e-copy of the announcement all the relevant details of FDP will be prepared and circulated through electronic media such as e-mail, whatsapp group of learned ones, social networking sites etc.

Five Days Faculty Development Programme (FDP) On Recent Progress in Science & Emerging Technologies (Sept 4–8, 2018)

Organized by

MODY UNIVERSITY
LAKSHMANGARH • RAJASTHAN
A Leading Women's University

Department of Physics
School of Sciences
Mody University of Science and Technology
Lakshmangarh, Rajasthan

About the FDP

The present FDP is based on the emerging scopes in the realm of modern scientific research and Technological progress. This faculty development program, Recent Progress in Science & Emerging Technologies from 4th to 8th Sept 2018, is devoted to address the need of Scientific and Technological development in the recent prospective of society. The growing areas in science and technology introduces the world by generating higher technology based applications with fewer inputs, having potential applications in generating new devices in science, engineering and technology. This FDP discusses the worldwide progress, applications of various areas of science and Engineering with hands-on experience.

About Mody University of Science and Technology

Mody University of Science and Technology (MUST), spread over 265 acres of lush greenery, is situated at Lakshmangarh (District Sikar) on the Jaipur–Bikaner highway (NH 11) and is ranked among top 45 universities in India and one of the four leading women universities (India Today, July 14). Apart from this, Mody University is ISO 14001:2004 certified.

This University offers wide range of courses in broad areas of Arts, Sciences, Humanities, Architecture, Engineering, Fashion Designing, Management and Law. To enhance global exposure of the students, more than 20 collaborations and MOUs have been signed with many international universities.

About Department of Physics

The department offers rich and comprehensive UG, PG and Doctoral programmes in the different area of Physics. We believe on positive teaching and a strong research environment. The department undertakes regular periodic evaluation of its programmes for their enhancement and development in the light of new and emerging international trends in the fields of Physics. The Physics department has following laboratories: General Physics Laboratory, Optics Laboratory, Advance Physics Laboratory and Physics Research Laboratory under its disposal. All of them are spacious and well equipped with all modern and state of the art equipments capable to carry out numerous experiments to elucidate concepts, to develop understanding of the inductive approach and the significance of a physical measurement. The department offers M.Sc. in Physics, a highly interesting and promising programme for students with broader bandwidth for absorption in research and industry alike. It offers core skills to a student, thus providing them with a platform for further research in the various areas of Physics like Solid State Physics, Photonics, and Nano-Science. The B.Sc. (H) in Physics and B.Sc. (Physics, Mathematics, Chemistry) are the undergraduate programmes designed to prepare the students not only for advanced studies in physics, but are also aimed towards providing valuable employment opportunities after graduation.

Major Topics

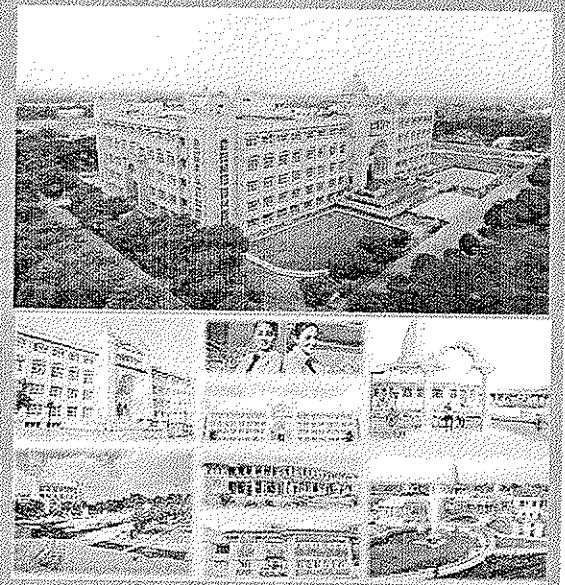

New Emerging Scientific Areas
Optoelectronics
Biomaterials
Mathematical Modeling
Chemistry in Nature

Registration Process

Interested participants can register by filling the registration form at www.modyuniversity.ac.in. Successfully registered and attended candidates will receive Certificate of participation at the end of FDP.

Five DaysFaculty Development Program
On
"Recent Progress in Science & Emerging Technologies"
September 4 to 8, 2018

Date: 10/09/2018

Discussion/Report

The Department of Physics has organized five-days Faculty development Program (FDP) entitled "***Recent Progress in Science & Emerging Technologies***" from September 4, 2018 to September 8, 2018 in Room No 7, GVC, MUST. The program was witnessed by the eminent speakers Dr. Ram Janma, Dr. Mohit Shrama, Dr. P.P. Singh, and Dr. Anil Kumar from outside of the university and Dr. Brajraj Singh, Dr. Manoj Mishra, Dr. Krishnapal Sisodia, Dr. Sandeep Jaiswal, Dr. R. K. Verma, Dr. Kiran Singh Bais, Prof. B. K. Goyal, Dr. Narendra Kumarfrom the inside of the university.

The department is indebted to our Patron Prof. MV Rao and Chairperson Prof Atul Kumar, Dean SOS,for their support and guidance. We are also very thankful to the Coordinators, Technical Teamand staff members of the department for their valuable suggestion and contribution in conducting this program. This FDP concluded with vote of thanks by Dr. Brajraj Singh, convener of the event and certificate distribution was done by Dean-SOS.

Five Days Faculty Development Program
On
"Recent Progress in Science & Emerging Technologies"
September 4 to 8, 2018

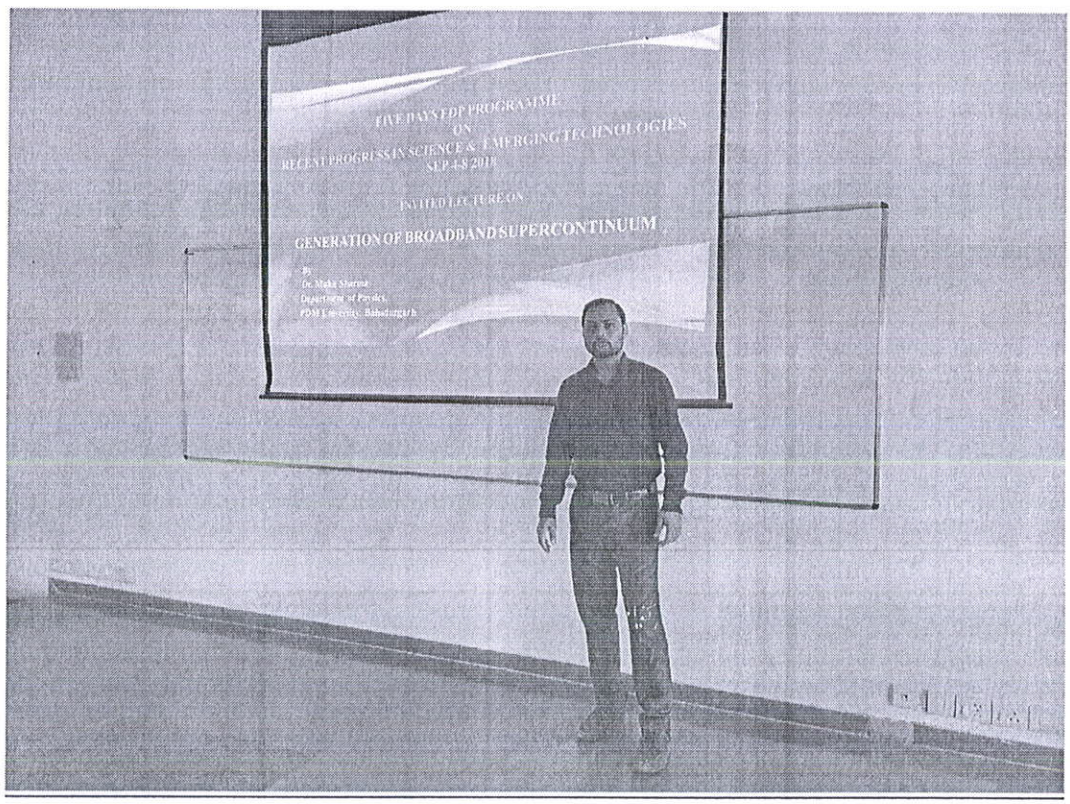

Outcomes

- This FDP was based on sharing the knowledge regardingdifferent new areas of Sciences and technology in which participants from different departments were involved.
- This five days FDP introduced an immense knowledge in new emerging topics,research as well as technological aptitude in in all areas of Sciences.
- Introduced aboutRecent Progress in Science & Emerging Technologies for interdisciplinary research and with emphasis on developments in Science and Technology.
- It introduced the knowledge regarding acquaintance with of recent advances in new emergingtechnologies.
- The lectures were from different latest topics including Physics, Optics, Biology, Chemistry and Mathematics.

Subject: For conducting a five-day Faculty Development programme on **"Art and Science of ICT Enabled Teaching and Research Writing".**

Dear Sir

With reference to the subject, we would like to put up a proposal for five days faculty development programmes for creating awareness about ICT enabled teaching and research facilities for more effective knowledge creation and dissemination. Project-based learning, peer and collaborative learning, and other advanced pedagogical strategies will be introduced to participants in order to develop autonomous, critical, and creative thinking among students and teachers. Participants in this programme will also be able to learn how to use online tools for learning, research, and professional development, as well as develop their capacity to plan, create, and implement research that meets international standards.

As this FDP aims to provide teachers with cutting-edge pedagogy for their own professional growth and the benefit of their students, we look for your kind approval of the same.

Further we will chalk out full proposal like resource persons, venue, expenses and dates, etc.

Thanking you in anticipation

Thanks & Regards

ARao 1/9/18

Dr A.S. Rao

FIVE DAYSFACULTY DEVELOPMENTPROGRAMME
ON
Art and Science of ICT Enabled Teaching and Research Writing
(10th –14thSeptember, 2018)
Organized by
Department of Arts, School of Liberal Arts
Mody University of Science and Technology
Lakshmangarh, Sikar, Rajasthan. 332311

Preamble: Mody University of Science and Technology is a state-owned private university with the mission of promoting and motivating women and providing high-quality education in a technologically advanced setting. The English department strives to be a prominent center for undergraduate and post-graduate study and research in English Literature, English Language Teaching, and Communication. Its goal is to produce talented professionals in the English teaching and research fields.

About the FDP:

The dynamic and ever-changing academic environment in the social sciences needs the development of skills and strategies on the part of instructors and researchers, and one method to do so is to adopt new research and teaching approaches. As a result, this Faculty Development Program has been meticulously planned to develop the foundational knowledge needed to train teachers and researchers to address rapidly changing educational needs by familiarizing them with ICT enabled teaching and research facilities for more effective knowledge creation and dissemination.This faculty development programme aims to provide teachers with cutting-edge pedagogy for their own professional growth and the benefit of their students. Project-based learning, peer and collaborative learning, and other advanced pedagogical strategies will be introduced to participants in order to develop autonomous, critical, and creative thinking among students and teachers.This will also aid in the development of the necessary knowledge and understanding to improve pedagogic culture and practice. It will not only provide direct and immersive experience of teaching and research processes to participants, but it will also inspire a spirit of inquiry and innovation. One of the most common approaches in the many stages of research and learning in this direction is to use open Source Tools. This has recently acquired prominence due to their flexibility and agility in improving research development and learning

new skills. The participants will be taught how to use a variety of open source tools to help them achieve their research goals. The key tools discussed are those that can help a researcher conduct a systematic background knowledge probe, visualize data, and effectively communicate results, as well as write research papers, prepare reports and thesis, and avoid plagiarism. Participants in this programme will be able to learn how to use online tools for learning, research, and professional development, as well as develop their capacity to plan, create, and implement research that meets international standards.

Major Course Contents:

- Improvement in the overall quality of research
- Creation of Research Profile and Collaborations
- Advanced Searching Tools and Referencing Tools
- Publication Ethics: Patent, Copyright and Plagiarism
- Gain better understanding of student-centric learning methods
- Get hands-on training in the usage of several open source tools
- Explain different ICT enabled methods to be used in classroom
- Utilize important technological tools to enhance the teaching- learning process
- Write research papers and thesis in the journal designated formats using online tools
- Knowledge of the process of finding good quality journals for research and publishing

Mody University of Science and Technology

Department of Arts, School of Liberal Arts

Lakshmangarh, Sikar, Rajasthan. 332311

Research question

- Research question has to be framed with similar studies which means data from different studies can be combined.
- Study selection via a systematic review is a precondition for performing a meta-analysis.
- Define the Population, Intervention, Comparison, Outcomes (PICO) parameters that are central to evidence-based research.

PRISMA

Screening articles for a systematic review
6,638 articles found by full-text searches in 3 article databases
6,020 articles excluded during screening on title
772 articles found by abstract searches in 14 article databases
1,395 articles included
198 duplicates removed
39 articles found using search engines, specialist websites, reference lists in literature reviews or stakeholder contacts
1,197 articles screened on abstract
821 articles excluded during screening on abstract
415 articles screened on full text
319 articles excluded during full-text screening
4 recent articles added when the main search was updated
Critical appraisal of 100 articles included after full-text screening
60 articles excluded due to redundancy or susceptibility to bias
40 articles with useful data from 41 studies included in the review
Statistical analysis of data from 31 studies

STEPS IN A SYSTEMATIC REVIEW

1. Determine the research question
2. Assemble the research team
3. Determine if there are any registered (in process) or published systematic reviews on your topic
4. Develop & register the protocol for the study
5. Develop a comprehensive search strategy, informed by your inclusion & exclusion criteria.
6. Select studies for include based on the predefined inclusion/exclusion criteria as detailed in the protocol.
7. Extract & analyze data
8. Interpret & synthesize results for publication
9. Update review as required

Discussion on FDP entitled **Art and Science of ICT Enabled Teaching and Research Writing:**

The Faculty Development Programme entitled *Art and Science of ICT Enabled Teaching and Research Writing i*s designed to create awareness about the ICT enabled teaching and research facilities for more effective knowledge creation and dissemination. Project-based learning, peer and collaborative learning, and other advanced pedagogical strategies will be introduced to the participants in order to develop autonomous, critical, and creative thinking among students and teachers. Participants in this programme will also be able to learn how to use online tools for learning, research, and professional development. This faculty development programme will also assist the participants in developing their capacity to plan, create, and implement research that meets international standards, as it aims to provide teachers and researchers with cutting-edge pedagogy for their professional growth.
