

MODY UNIVERSITY OF SCIENCE AND TECHNOLOGY
SCHOOL OF LAW
LAKSHMANGARH, RAJASTHAN

About the Courses

Mody University of Science and Technology is committed to empowering women through excellence in education. As the legal landscape becomes increasingly complex, professional expertise in niche areas of law is essential for students across all disciplines.

The School of Law offers specialized Certificate Courses designed to equip students with practical insights and professional skills. These courses bridge the gap between academic theory and industry requirements, ensuring that participants gain a competitive edge in their respective careers.

Key Objectives

- To provide an in-depth understanding of specialized legal frameworks including Cyber Law, IPR, and Forensic Science.
- To facilitate a hands-on approach through practical case studies and contemporary legal analysis.
- To encourage critical scholarship on emerging issues of law and policy.
- To impart skills required for effective legal practice and professional ethics.

Learning Outcomes

After completion of the courses, students will be able to:

- Identify and navigate the legal complexities of the digital and corporate world.
- Understand the procedural aspects of filing and protecting Intellectual Property.
- Apply forensic principles to criminal investigation and evidence evaluation.
- Make informed decisions regarding regulatory compliance and legal risk management.

Pedagogy

The method of teaching follows a blended nature, combining:

- Interactive live lectures.

- Case study analysis and simulation exercises.
- Learning through comprehensive course content.
